

Experience culture

Founded in 1748 in the heart of Europe, today a world-famous brand. Villeroy & Boch looks back on a rich tradition and has developed a culture from its very beginning. This has resulted in a quality and diversity that cannot fail to impress. Our products embody classical elegance, the beauty of nature or urban design. Discover a special selection of our bathroom collections in four style worlds: Classic, Country, Metropolitan and Easy. Whatever your personal style, with Villeroy & Boch you can experience culture in your own home.

The name Villeroy & Boch is a promise. A promise of products whose outstanding quality is evident at first glance. This is because they meet the highest requirements of material and aesthetics in every single detail. Shaped by a deeply rooted culture of innovation, Villeroy & Boch regularly transforms visions into reality. After all, the more than 265-year company history stands for unparalleled experience and skill.

Quality and performance from the very beginning

These are reflected both in the selection of high-quality materials and in the last critical glance of our experts. In impact and scratch-resistant ceramics that are outstanding on the strength of their durability, ease of care and excellent hygiene properties. In furniture that has characteristically high quality surface structures and colour plus beautifully sealed edges and corners. And in material innovations such as TitanCeram or Quaryl*, which open up completely new possibilities as far as form is concerned. Paired with state-of-the-art manufacturing methods, we create products that will be a tremendous source of delight from day one, and that will continue to delight for a long time to come.

ViFresh

Easy. Invisible. Fresh.

Easy and aesthetic toilet hygiene with a fresh fragrance: ViFresh, the innovative compartment for rim blocks. It is integrated almost invisibly in the ceramic behind the toilet seat and can be filled with commercial rim blocks or toilet gels, avoiding the need for physical contact with unhygienic areas of the toilet. As the water flow is no longer hindered by holders or baskets, ViFresh is also ideal for rimless toilets.

AntiBac

Lasting protection against bacteria

AntiBac is an innovative hygiene solution for the bathroom, which really reduces the risk of bacteria being transmitted. The new glaze contains silver ions and has been proven to reduce the growth of bacteria on ceramic surfaces and toilet seats by more than 99.9 %. In combination with CeramicPlus and the rimless DirectFlush toilets, AntiBac ensures maximum cleanliness and hygiene – for the entire product lifetime!

CeramicPlus

Less cleaning - more time to enjoy life

For more than 15 years CeramicPlus, the dirt-repellent surface finish for ceramics, has been facilitating bathroom cleaning for millions of customers. The innovative finishing process ensures that surface water immediately forms droplets that simply flow off the surface, taking the dissolved dirt and limescale with them. And should any deposits remain, CeramicPlus is much easier to clean. Even dried limescale is easier to remove in an environmentally-friendly manner without the use of aggressive cleaning agents - a real advantage in the bathroom! Tested and confirmed by the wfk-Forschungsinstitut für Reinigungstechnologie.

villeroyboch.com/ceramicplus

Conventional ceramics

Flow properties of liquids on a conventional ceramic surface.

Dirt and limescale adhere more easily to conventional ceramics.

CeramicPlus

Liquids flow off more quickly with CeramicPlus; the ceramics stay cleaner.

With CeramicPlus, dirt is hardly able to gain a hold. For easy cleaning, even with dried on limescale.

SoftClosing

Thanks to special dampers integrated in the hinges, toilet seats with SoftClosing technology close gently and silently. This enhances comfort and prevents any noise or minor accidents caused by the cover slamming shut.

DualFlush

The DualFlush water-saving button enables you to choose between a large and a small flushing volume. Press the large button to trigger the conventional 6-litre flush and the small button for just 3 litres.

QuickRelease

WC seats with QuickRelease technology can be removed and replaced in a flash. This means that those areas of the toilet rim that are difficult to access can also be cleaned with ease. Reattaching the seat is just as easy.

AquaReduct

With this innovation, Villeroy & Boch has succeeded in reducing the standard flush from 6 to just 4.5 litres for a whole range of toilets. This means a saving of 1.5 litres of water per flush — yet with the same powerful flushing performance.

GreenGain

Saving water - good for you and the environment. Our efforts to develop particularly sustainable products have resulted in innovative water-saving technologies. They reduce consumption considerably and have set new standards. So you are being kind on both the environment and your wallet.

The GreenGain toilet from the Architectura collection is revolutionising water consumption. Thanks to an innovative water-distribution system with three inlets, it only needs 3.5 litres of water per flush. This corresponds to a saving of $40\,\%$

compared with a conventional 6-litre toilet. With the additional water-saving button, consumption can be reduced even further to just two litres. The innovative toilet design guarantees excellent flushing performance, even with these low volumes of water.

EasyAccess

The Push & Pull siphon with receptacle

The EasyAccess siphon facilitates cleaning the outlet because, unlike the conventional siphon, it is easily accessible from above. Particularly practical: earrings or other jewellery accidentally dropped in the bowl are no longer lost as they land in an integrated receptacle that can be quickly removed from above without having to dismantle the pipe.

Nature perfected. The exclusive, innovative material from Villeroy & Boch sets standards in aesthetic bathroom design. Quaryl® combines the best properties of natural quartz with the versatility of high-quality acrylic resin. It is a refinement of nature — warm, smooth and offering clean design lines, solid and hard as crystal.

However, in a break from nature, form is not left to chance, rather it is in the hands of designers, and Quaryl® gives them completely free rein. This can be seen particularly well in the flat shower trays, which fit perfectly into the floor; in exclusive bath designs and in whirlpools with the flush-fitting InvisibleJets – massage jets which are almost invisible when not in use and only "pop up" when activated.

Venticello

A clear design and modern look and feel—the furniture collection with minimalist lines and aesthetic lightness. Whether you prefer an elegant wood structure or trendy glass fronts, the furniture can be adapted to suit your own style and personalised with different handle colours. The decorative contrasts between light and shade on the scratch-resistant glass fronts are particularly stylish, as are the brilliant reflections.

Working with high-quality materials calls for maximum care. The wood is meticulously air-dried. The grain, structures and also the surface colours are continuously monitored. Edges and corners are also sealed in accordance with the most stringent wet room criteria. The surface and interiors of all furniture items are completed by dedicated and skilled experts and every production stage is subject to continuing quality controls. You can count on that.

Legato

Impressively sleek, the sophisticated details of this furniture programme only become apparent at second glance: for example the LED lighting beneath the washbasin countertop. Together with the bevelled edges, this creates the impression of lightness, as if the countertop were floating. Handle-free fronts complete the straight-lined look perfectly.

Hommage

Exquisite Hommage bathroom furniture is a testament to its origins. That's because every step is carried out with the most meticulous workmanship and passion. The washbasin countertops made of top quality marble and the ceramic knobs on the drawers demonstrate impeccable style down to the very last detail.

Aveo New Generation

Stylishly arched fronts and real-wood veneers emphasise the natural look of the premium furniture collection. Countertops in Glossy White Lacquer highlight the reduced design, whilst the elegant glass variants in Smokey Grey add an additional exclusive touch.

La Belle

The La Belle furniture features several coats of varnish, all applied by hand: the special sheen creates an enchanting effect in any bathroom. Other highlights in the collection include the elegant frame construction of the furniture fronts, as well as the velvet-like finish of the interior compartments inside the vanity units.

Memento

With the exclusive Bright Oak furniture surface, every touch becomes an experience. The highly individual real oak veneer with its rich texture creates exciting, haptic and visual contrasts to the glass surfaces and ceramics.
