

GIOTTO

Design by Natalino Malasorti

CEA

GIOTTO and GIOTTO PLUS

Inspired by the pure and archetypal forms of the circle, the GIOTTO and GIOTTO PLUS collections are designed to offer maximum compositional freedom thanks to their versatility. Both collections express a harmony of aesthetic and functional consistency.

The GIOTTO collection features progressive, dual-handle, and thermostatic mixers, while GIOTTO PLUS is available with a single-handle mixer. Maintaining the pure and contemporary lines of the GIOTTO collection, GIOTTO PLUS incorporates a deliberately generous handle that houses the mixer cartridge internally while remaining externally visible.

All products in the collection are made of AISI 316L stainless steel and are available in standard satin and polished finishes, as well as all of CEA's special finishes (Black Diamond, Bronze, Copper, and Light Gold), ensuring an ecological and biocompatible solution.

Additionally, GIOTTO can be customised with handles crafted from four different wood essences: Canaletto Walnut, Burma Teak, Oak, and Wenge.

The taps are complemented by the GIOTTO accessories collection, which reiterates the circular form, emphasising the concept of perfection.

NATALINO MALASORTI

Natalino Malasorti is the co-founder and art director of CEADDESIGN.

With 40 years of experience in hydraulic plant engineering, along with his technical expertise in bathroom design, he has become a recognized specialist in tap engineering.

Since 2007, alongside his wife Roberta Bertacco, he has focused on a new business venture centered on the sustainable production of taps. By pioneering the use of stainless steel as the sole material for production, CEADDESIGN has emerged as a leader in the tap industry, highlighting environmental responsibility and respect for future generations.

The company is known for its strong commitment to technology, innovative application solutions, and thoughtful reinterpretation of products, establishing itself as a key player in the bathroom furniture sector.
