HERITAGE

Innovators by nature.
Pioneers in engineering excellence.

Since 1968, *Majestic* has been leading the way in glass shower screens and enclosures. More than fifty years later our commitment to elegant, timeless and understated design remains as strong as ever.

A *Majestic* shower is an icon of beauty. It possesses an exacting, aesthetic quality all of its own – one that transcends superficial fads and trends.

Whether you seek a sanctuary of calm or refreshing invigoration *Majestic* lets your imagination run free. Large or small, modern minimalism or classic opulence, our shower collection will transform your bathroom and enhance your home.

MAJESTIC
LONDON

20 GROSVENOR SQUARE

Royalty, prime ministers and titans of industry have called it home. Dickens, Austen and Wilde have featured it in their works.

From 1943 it was the command centre for General Eisenhower's Operation Overlord, known as D-Day.

Majestic installed the *Sarah* throughout, with full-height W/C, shower enclosure and dividing return panel in opaque satin etched glass.

THE SHARD

The Shard has redefined the London skyline, its residential apartments are the highest in the UK.

Majestic recessed ceiling fixed *Monaco* panels into the floor and walls, echoing The Shard's seamless exterior.

With its distinctive, spiral shape crafted from a winding steel ribbon, the W Edinburgh is a new centrepiece on the Edinburgh skyline.

Over a 3-year period Majestic worked closely with renowned architecture and interior design practice Jestico + Whiles, providing a mixture of full height Rio, Napoli and Sarah enclosures with a bespoke handle for the 232 unique rooms, suites and the hotel's spa area.

HANWELL SQUARE

Nestled within the leafy Ealing suburb of London, Hanwell Square is already home to over 100 residents as well as shops and businesses, designed around a vibrant village square.

Our client wanted a statement enclosure that created a desirable and spacious showering solution for a tranquil haven. Majestic products included our 3 panel Napoli enclosure, finished in the timeless Brushed Nickel for classic elegance with a modern feel. The frameless Napoli enclosure is complimented by the Valletta bath screen to the en-suite apartments.

MAJESTIC

Frameless and Beyond Bespoke

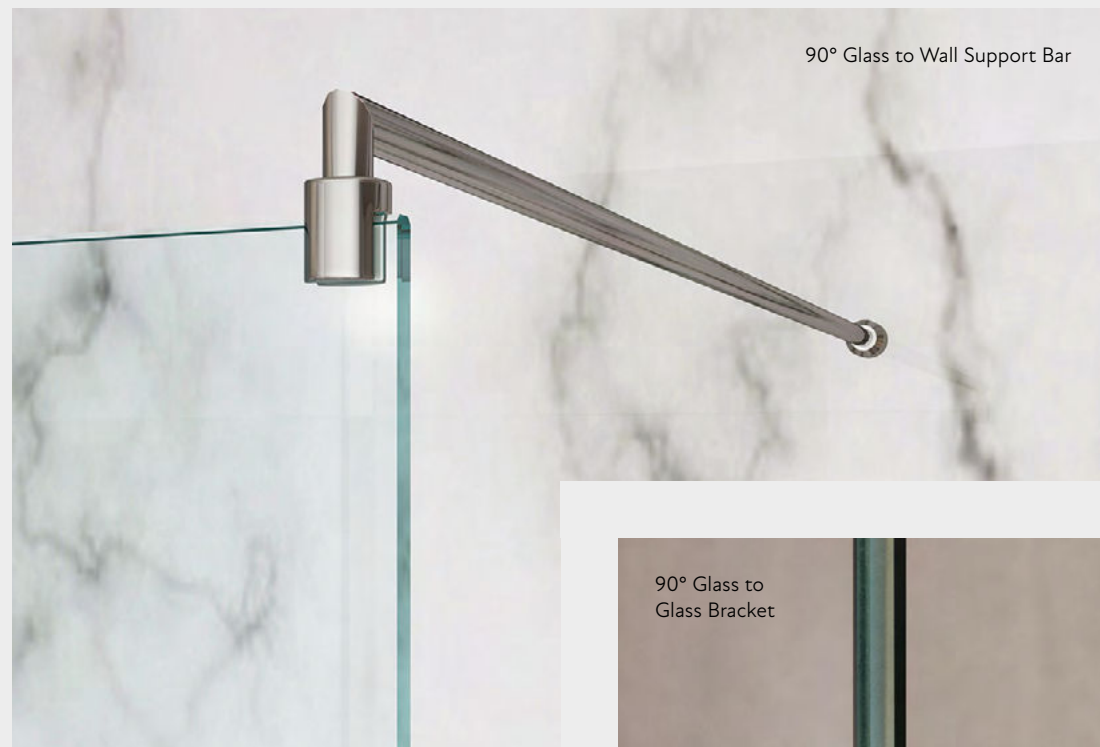

Demi Framed

Due to the inherent nature of the materials that make up a shower enclosure, there may be slight difference in the lustre of the profiles against that of the components.

Images are representative only. Samples are available from your Majestic Dealer on request.

FRAMELESS FITTINGS

The Majestic hinge

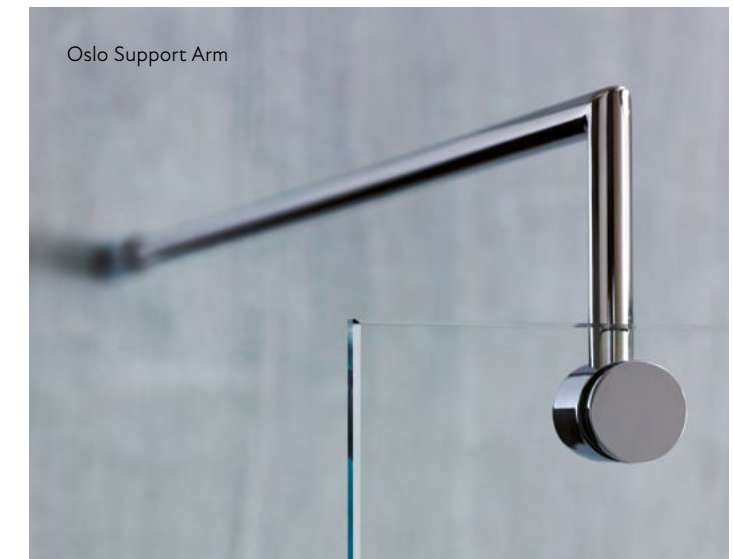

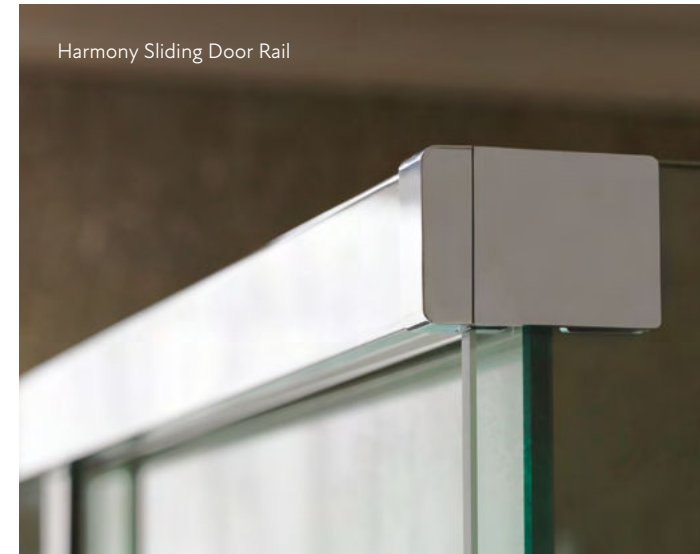

One of the defining features of a Frameless Majestic shower screen is the hinge, whose iconic flat landscape design is unmatched.

This heavyweight fitting is fully adjustable, with its unique bias mechanism providing positive pressure and perfect door closure every time.

FRAMELESS FITTINGS

Our components are precision engineered from solid brass and stainless steel.

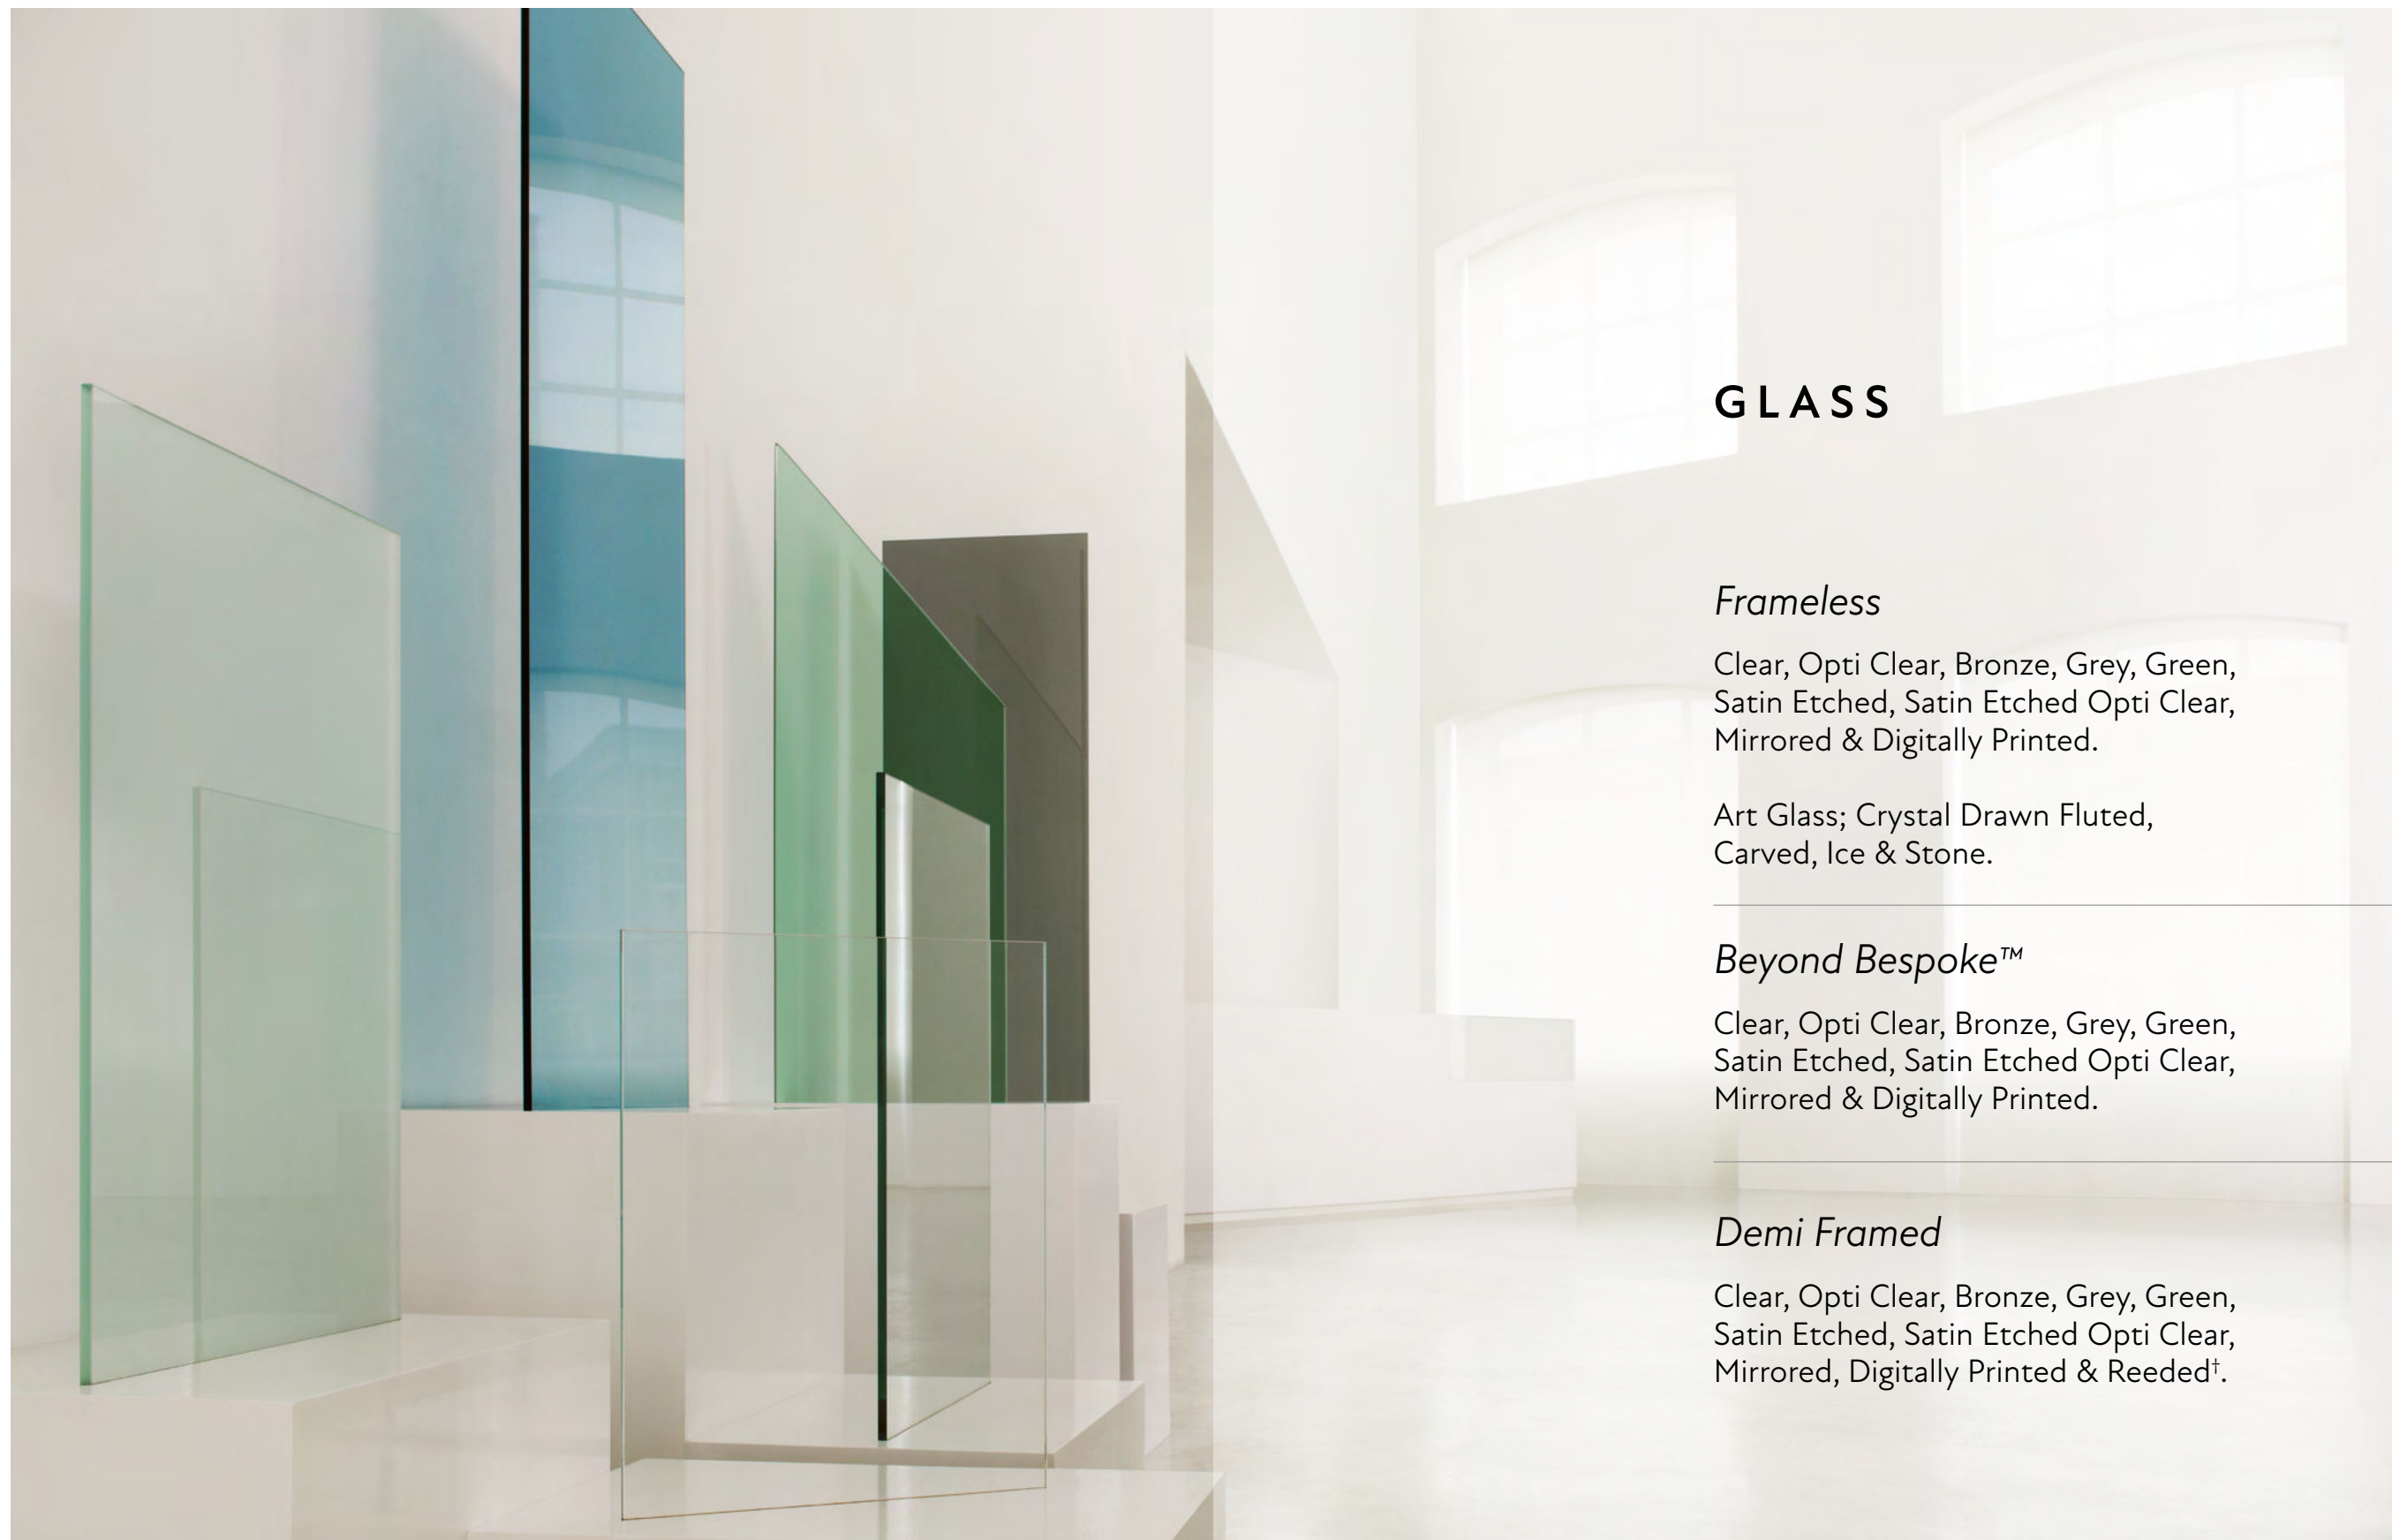

HANDLES

A designer knows they have achieved perfection not when there is nothing left to add, but when there is nothing left to take away.

HANDLES

GLASS

Frameless

Clear, Opti Clear, Bronze, Grey, Green, Satin Etched, Satin Etched Opti Clear, Mirrored & Digitally Printed.

Art Glass; Crystal Drawn Fluted, Carved, Ice & Stone.

Demi Framed

Clear, Opti Clear, Bronze, Grey, Green, Satin Etched, Satin Etched Opti Clear, Mirrored, Digitally Printed & Reeded†.

†Reeded Glass supplied in 8mm - available on Demi Framed only.

GLASS

Technical details

All Frameless and Beyond Bespoke shower screens are made in 10mm glass. Demi Framed doors are 8mm. Our glass is toughened safety glass to BS EN 12150.

In accordance with BS EN 14428 each enclosure is marked with BS EN 12150, usually on the leading edge of the door or panel.

Glass protection

Majestic has researched all the glass protection products available in Europe and the United States. We find that EnduroShield is optimum for showers. The properties are such that we guarantee the effectiveness for five years.

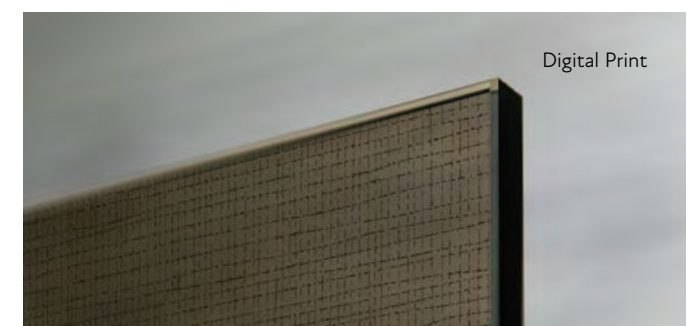

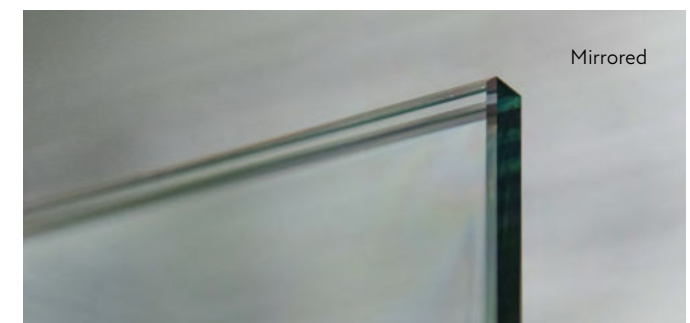

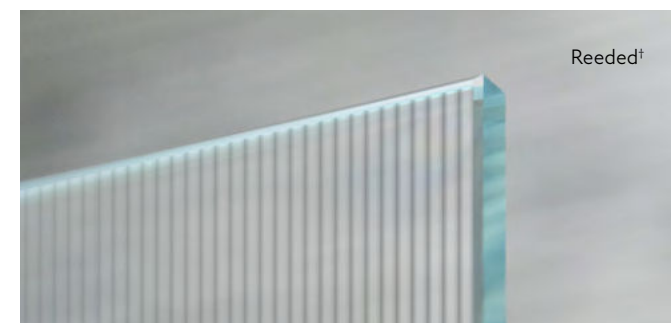

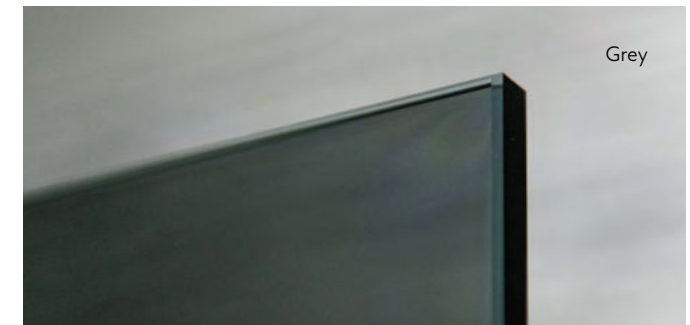

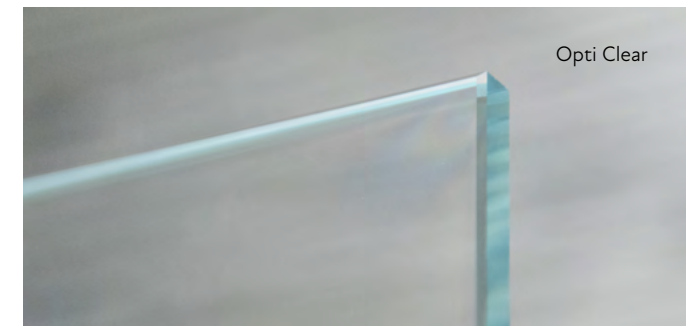

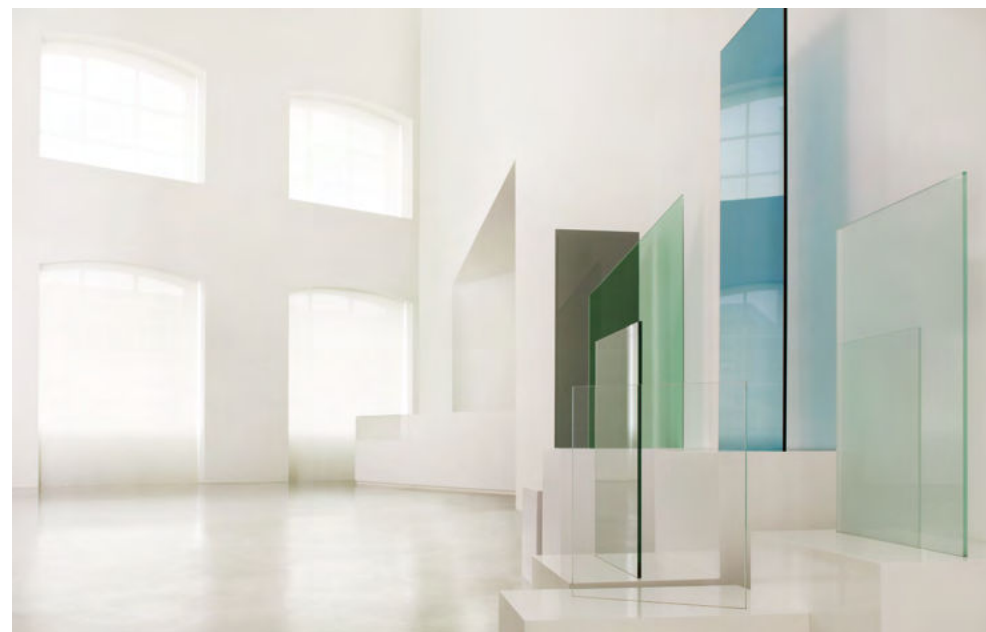

Only a damp micro-fibre cloth and mild detergent should be used for cleaning.

Digital Printing

Ceramic Digital Printing for glass is an advanced technique that allows detailed and customised designs to be applied directly onto glass using ceramic inks. This technology achieves extremely sharp and accurate image reproduction, as well as significant versatility in colour density to meet various design and aesthetic requirements.

The ceramic inks used are specially formulated to adhere to glass and are fired at high temperatures merging the ink with the glass surface, ensuring durability and resistance to fading from sunlight exposure and other elements.

This technique contributes to architectural aesthetics by offering almost limitless possibilities for glass design, making it a preferred choice for architects and designers.

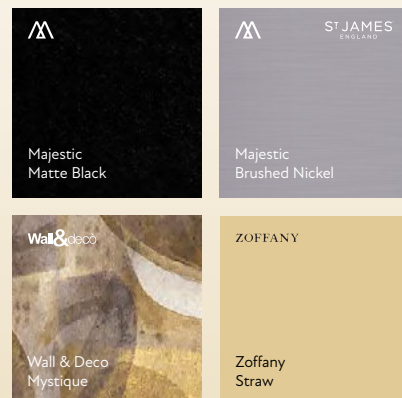

†Reeded Glass supplied in 8mm - available on Demi Framed only.

CURVED GLASS

BEAUTIFUL
SOFT CURVES.

Our Bespoke *Maine* presented with beautifully curved glass. Designed to make a statement full of warmth and charm, drawing inspiration from the timeless allure of arches and curves.

Shown Bespoke with matte black fittings, clear glass with curved top, underframe to base and long square D handle in brushed nickel.

Contact your sales representative for full pricing.

DIGITAL PRINT ON GLASS

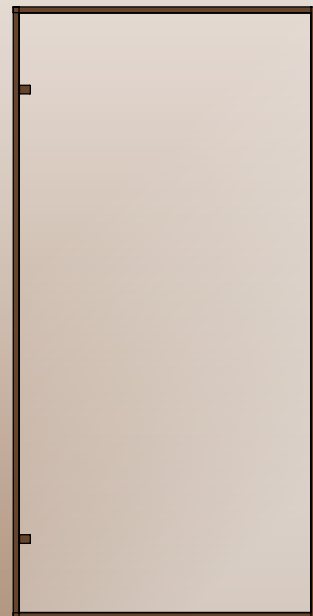

INDIVIDUALISATION & PERSONALISATION

ENDLESS POSSIBILITIES

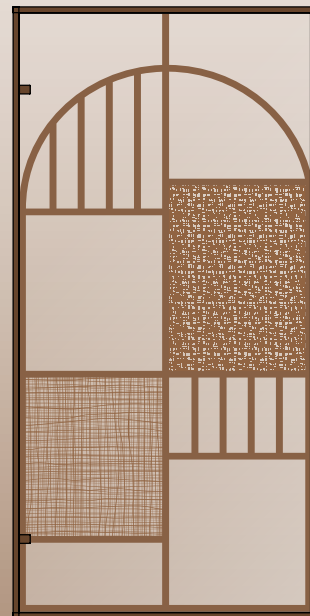

Our Bespoke *Monaco* presented with a detailed, customised digitally printed design.

The gentle curve in the design provides a soft contrast to the more linear elements in the showering space, making a bold artistic statement.

MONACO PANEL WITH 24mm CHANNELS TO ALL 4 SIDES

MONACO PANEL WITH DIGITAL PRINT AND 24mm CHANNELS TO ALL 4 SIDES

Shown Bespoke with full height ceiling fixed glass, country bronze glazing profiles fitted to all 4 sides and a custom design digitally printed on the glass in RAL 8002 signal brown.

Contact your sales representative for full pricing.

ART GLASS

Introducing the new Art Glass Collection from Majestic, a breathtaking curation of bespoke shower screens incorporating four unique textures.

Carved patterns are hand carved deep into the surface of the glass by an atelier.

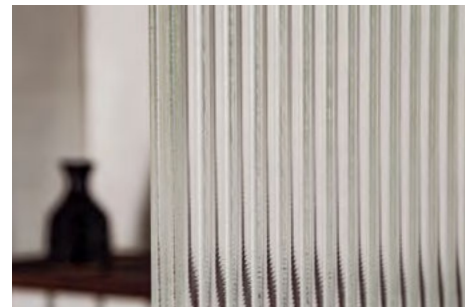

44	CRYSTAL DRAWN	48	STONE
46	CARVED	50	ICE

CRYSTAL DRAWN

Crystal Drawn Art Glass is characterised by its crystalline clarity, organic finish and wide fluting on one face.

Produced through an historic method of flat glass production, the Fourcault process, by which molten glass is drawn vertically upwards, against gravity and through a mould, to create the fluted design.

The glass is then brought to life through flame polishing, to create a natural shimmer finish.

Attributes

Crafted from high purity cullet, resulting in crystal clear glass with greater light transmission than even Opti Clear glass.

Flame polished to seal its surface, locking the iridescence of natural imperfections into its final form.

Textured only to the exterior surface, with anti-calcium coating on its flat interior, to protect against hard water and simplify cleaning.

Design parameters

Maximum panel height: 2700mm
Maximum panel width: 1500mm

Handles available: Short / Long Round D
Short / Long Square D
Short / Long Contour
Short / Long Chamfer

Available on all products in the Frameless Portfolio, excluding sliding enclosures.

Shown on a Monaco with Taunton fittings and a ceiling bracket.

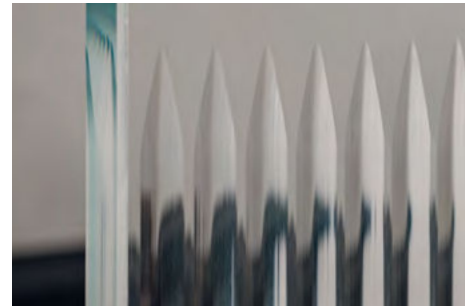

Contact your sales representative for full pricing.

CARVED

Carved Art Glass is reminiscent of cut crystal glass on a larger scale, creating a unique finish with stunning light refraction properties.

The Carved design is produced by grinding into the surface of the material and then meticulously polishing the inverse pyramidal tips. Each panel takes around 10 hours of work to complete, each a unique piece of art.

Attributes

The cut crystal aesthetic transcends the vernacular, unveiling an avant garde design that oozes modernity.

Textured only to the exterior surface, with anti-calcium coating on its flat interior, to protect against hard water and simplify cleaning.

Design parameters

Maximum panel height: 2700mm
Maximum panel width: 1500mm

Handles available: Short / Long Round D
Short / Long Square D
Short / Long Contour
Short / Long Chamfer

Opti Clear, Grey, Bronze and Satin
Etched glass is suitable for carving.

Available throughout the
Frameless Portfolio.

Shown on a Monaco with Ultramarine, RAL5002, fittings and a ceiling bracket.

Contact your sales representative for full pricing.

STONE

Echoing the subtle layers of natural stone, Stone Art Glass can stand alone as a statement piece or bring cohesion to any bathroom design.

The term 'Kiln Forming' is the process of shaping the glass with heat and gravity. The glass is placed in a mould and then heated so it becomes soft and viscous, before entering into the mould and taking on its form.

Attributes

Each panel is handmade with meticulously placed flat areas for our fittings, creating a halo around each component and transforming standalone pieces into a cohesive shower enclosure.

Characterised by its soft, organic and textural finish, every kiln formed panel is unique, with no two designs ever the same.

Textured only to the exterior surface, with anti-calcium coating on its flat interior, to protect against hard water and simplify cleaning.

Design parameters

Maximum panel height: 2700mm
Maximum panel width: 1200mm

Handles available: Short / Long Round D
Short / Long Square D
Short / Long Contour
Short / Long Chamfer

Opti Clear, Grey, Bronze and Satin
Etched glass is suitable for kiln forming.

Available throughout
the Frameless Portfolio.

Shown on a Monaco with Warm Bronze fittings and a ceiling bracket.

Contact your sales representative for full pricing.

ICE

Ice Art Glass takes inspiration from nature, allowing light to pass through its folds in order to create intricate shadows and depth.

While kiln forming, gravity takes hold of the molten glass, which fills the mould and takes on the form of the unique design. When cooled, the glass resumes its crystalline structure, in its newly assumed physical form.

Attributes

Each panel is handmade with meticulously placed flat areas for our fittings, creating a halo around each component and transforming standalone pieces into a cohesive shower enclosure.

Characterised by its soft, organic and textural finish, every kiln formed panel is unique, with no two designs ever the same.

Textured only to the exterior surface, with anti-calcium coating on its flat interior, to protect against hard water and simplify cleaning.

Shown on a Monaco with Warm Bronze fittings and a ceiling bracket.

Short / Long Square D
Short / Long Contour
Short / Long Chamfer

Opti Clear, Grey, Bronze and Satin
Etched glass is suitable for kiln forming.

Available throughout
the Frameless Portfolio.

Rio Bespoke with beautiful curved glass tops, gun metal fittings, long chamfered handle and underframe to base.

Monaco Bespoke with matte black glazing profiles fitted to all 4 sides and a custom design digitally printed on the glass in RAL 9017 traffic black.

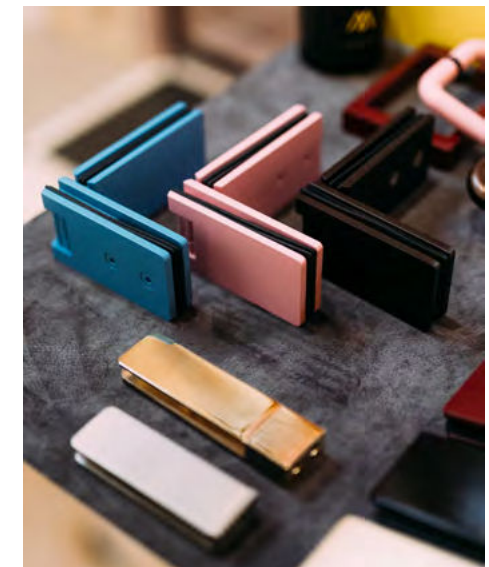

Clerkenwell Design Week, London

SPECIFICATION SOLUTIONS

The Majestic Project Department provide a service entirely dedicated to the contract sector.

We routinely supply shower enclosures for hotels, residences, workplaces, luxury trains and yachts. Our team of specialised individuals possess the specific skill set required to support construction industry professionals for the entire process, from ideation to realisation.

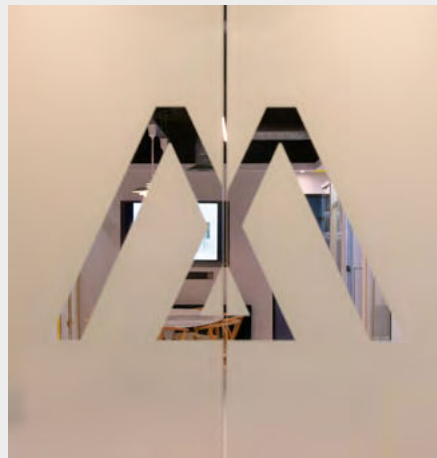

Offering comprehensive support from consultation, analysis of suitable product variations for your project, indicative costing and technical guidance. As well as working closely with clients to arrange call-offs, advise on maintenance and provide exceptional after-sales service.

Clerkenwell Design Week, London

Marketing brochure for Trent Park, Enfield, London

The Gallery

The Gallery is a new and interactive showroom experience from Majestic.

Showcasing our Frameless, Beyond Bespoke and Demi Framed portfolios, The Gallery allows visitors to explore new showering opportunities. This unique design destination is available to assist in product specification, team product training days, your own client meetings and lunch and learn sessions. A range of supporting materials and samples are also readily available.

Simply visit majesticshowers.com/gallery to find out more and to book a visit.

BIM and NBS

Majestic provides Building Information Modelling (BIM) files to allow digital modelling of our shower screens for your projects.

In addition, we are an NBS Source Partner, enabling our showering solutions to be quickly selected and imported into NBS Chorus to simplify the creation of specifications.

Chelsea Waterfront,
London

Projects

Our commitment to making things simple for professional specifiers has been proven in prestigious projects including:

- Chelsea Waterfront**, London
- No. 1 Palace Street**, London
- Claridge's**, London
- St Andrews**, Fife
- Filmworks**, Ealing
- Star and Garter Mansion**, Richmond
- Gleneagles**, Perthshire
- The Ritz**, London
- The Shard**, London

Claridge's,
London

Sustainability

Majestic understands the need to support our client's environmental objectives. With this in mind, our glass, steel and aluminium are carefully selected and fully recyclable once reaching the end of their working life.

Our products are designed and manufactured to deliver assured long-term performance and many are still working perfectly, 30 years and more after being installed. All products are also packed in biodegradable unprinted cardboard.

Survey & Installation Service

The Majestic team of experienced accredited installers can professionally survey bathrooms and install our products to the most exacting industry standards.

FRAMELESS

Your bathroom is a blank canvas,
a clean slate of possibilities.
We offer you the opportunity to *realise*
your dream showering experience.

Axonometric view of Sarah

Developed alongside leading architects, the *Sarah* effortlessly divides the showering and W/C area.

Opaque satin etched glass comes as standard.

Full pricing and technical overleaf.

We provide the know-how.
You bring the creativity.

It was working this way with the designers across two super-prime developments that the Sarah was born.

A variation of this shower and W/C enclosure was first created in 2017. Developed to meet Finchatton's ambitious design intent for 20 Grosvenor Square, the former command centre for General Eisenhower's Operation Overlord. The design has since evolved through several iterations, each crafted to meet the need of architects and designers over a series of bespoke projects.

This ethos of creative collaboration, whereby our expertise is melded with a designer's vision, is intrinsic to Majestic and echoed by the approach Sarah Roche has taken with clients throughout her Majestic career. It is with a deep sense of gratitude and appreciation that we have chosen to name this enclosure after her.

Sarah joined Majestic in 2003, created our Specification department from scratch and has worked on some of the finest developments in London. To name a few, these include One Hyde Park, St. Pancras Renaissance Hotel, The Shard Residences and No. 1 Palace Street.

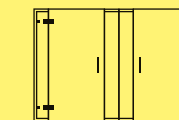

"There has been a great deal of research into the ways design and the built environment affect our mood and wellbeing."

"When you have high quality and beautiful things around you, that you see and use every day, they're a pleasure to have in your life."

Sarah Roche
Specification Consultant

- height 2200mm
- Suitable for steam
- Manufactured to the Standard Specification opposite unless requested otherwise

Adjustment

- 30mm of adjustment

Survey & Installation Service

- Tier 4 (see page 188)

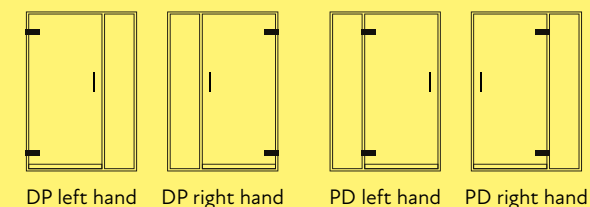

Installation Notes

Standard and Bespoke - When installing the unit a 150mm gap is required between the headrail and the ceiling or soffit for fixing. Therefore the unit should be installed prior to the soffit when taking the unit to ceiling height or making the enclosure steam proof.

Bespoke only - When installing into a pre-existing aperture the headrail can be installed from below on request. When fixing from below the door must be wider than the inline panel. This must be specified when the order is placed.

Redefining the genre when first unveiled in 1968, the *Constance* is founder John King's first Majestic door.

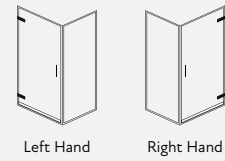

Deceptively simple design, often imitated but never equalled, it remains a company favourite.

Shown Bespoke with matte black fittings and a long round D handle mounted horizontally.

Often specified in a steam environment.
Full pricing and technical overleaf.

Installation Notes

When installing the Levant without a headrail, there must be clearance above the door. Please do not order to the exact aperture height when choosing not to specify a headrail.

Levant door cannot have a headrail fixed from above. If headrail is required, this can only be fixed from below to a pre-existing aperture. This must be specified when the order is placed.

Installation Notes

When installing the Ponente without a headrail, there must be clearance above the door. Please do not order to the exact aperture height when choosing not to specify a headrail.

When installing with optional headrail, a 150mm gap is required between the headrail and the ceiling or soffit for fixing. Therefore the door should be installed prior to the soffit. When installing with optional headrail into a pre-existing aperture, the headrail can be installed from below. This must be specified when the order is placed.

Survey and Installation Service

We will visit your home to survey your shower space and advise on your specification. Your enclosure will be manufactured to the precise measurements taken on site and installed by our expert installers. Painstaking care is taken on site, with profiles adjusted to millimetre perfect lengths, to ensure you receive the best in fit and finish.

Tiering information

Products are grouped into tiers for pricing purposes.

- Tier 1** Genoa, Valletta & Alessi
- Tier 2** Archangel, Maine, Monaco & Oslo
- Tier 3** Agave, Athena, Cadiz, Harmony, Napoli, Portofino, Rio, Venice, Ponente & Levant
- Tier 4** Harmony Corner, Como Como Corner, Geneva & Constance
- Tier 5** Barcelona & Deauville

Terms and Conditions

Survey requirements are provided at the point of enquiry. Two working days notice is required to cancel and rebook appointments. Both surveys and installations cancelled with less notice will be charged at the aborted installation price. A decision maker must be present at both survey and installation for confirmation of specification and placement of enclosure, in addition to sign off both pre and post installation.

Postcodes served

Postcodes are divided into areas 1, 2 and 3. Please see the key and map opposite to find your postcode.

All London postcodes fall within Area 1. Other postcodes not shown are in Area 3.

Oversized panels

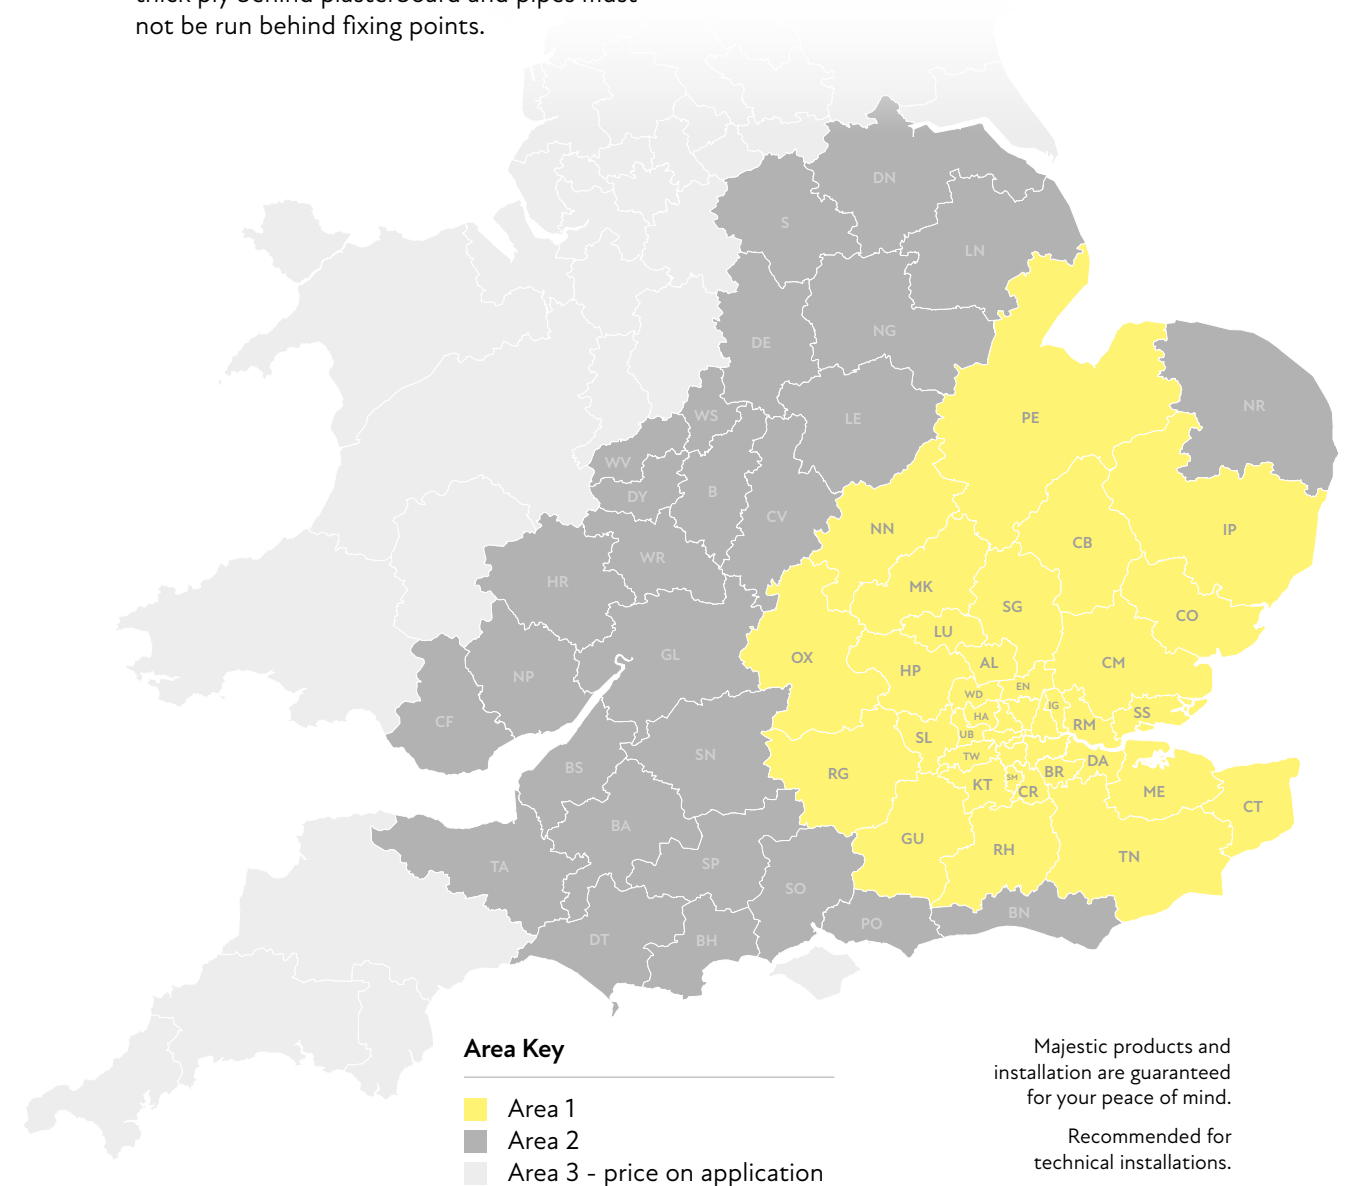

Panels over 2.4m² are considered oversized due to their weight and complexity to handle. Enclosures with oversized panels will be highlighted following the site survey. They may require a courier service delivery in addition to a 3 man installation team, therefore oversized units will be subject to a surcharge.

Things to bear in mind

Before we are able to survey your site, your shower area must be finished, with wall tiles and shower tray installed. 10mm Frameless glass is heavy, therefore it is essential that there are appropriate grounds for our fixings wherever the shower screen meets a wall or ceiling. The minimum requirement is 19mm thick ply behind plasterboard and pipes must not be run behind fixing points.

Beyond Bespoke™ is a
Registered Trademark of
The Majestic Shower Company.

All information is correct at the
time of print and is subject to
change without prior notice.

E&OE excepted.

Terms and Conditions for Shower Units

1. The Majestic Shower Company's lifetime guarantee covers the performance of all metal and glass components for the lifetime of that product.
2. Bespoke component finishes (excluding chrome and nickel), seals and gaskets are guaranteed for 3 years from the date of purchase. Anti-calcium glass coating is guaranteed for 5 years.
3. To claim under the guarantee, you must register your guarantee online within 30 days of installation at www.majesticshowers.com/guarantee
4. The guarantee is only available to the original purchaser and is non-transferable.
5. If the product purchased is defective in materials or manufacture, The Majestic Shower Company will, at our discretion, either replace, repair or refund the purchase price of any part or whole of the goods purchased. This shall constitute our sole obligation under this guarantee.
6. This guarantee covers normal domestic use and is valid only for products installed in accordance with our fitting instructions.
The Majestic Shower Company will not be liable for:
 - i) any defect in the goods which result from accidental damage, willful neglect, reasonable wear and tear, use of abrasive cleaners or incorrect installation.
 - ii) any product that has been altered, modified or transformed in any way unless consent is given by The Majestic Shower Company.
 - iii) any installation costs, unless written consent is given by The Majestic Shower Company.
 - iv) any compensation for loss of the use of the product or consequential loss of any kind.
7. This guarantee is valid for products purchased and installed in the United Kingdom and Eire only.
8. This guarantee is in addition to and does not affect your statutory rights.
9. Points 1-8 are a concise representation of our full Terms and Conditions of trade. Please see our full Terms and Conditions online for further detail. The full Terms and Conditions take supremacy in the instance of any dispute.
