Glass Design è un'eccellenza Italiana nella produzione e nel design di lavabi e complementi d'arredo bagno. ***Glass Design** is an Italian excellence in the production and design of bathroom washbasins and interior decoration furnishings.*

Situata a Vinci, cuore della Toscana e città di "Leonardo da Vinci", Glass Design è stata fondata nel 1984 dalla famiglia Borsellini, dopo una pluriennale esperienza nella manifattura del vetro artistico.

Located in Vinci, in the heart of Tuscany and native town of "Leonardo da Vinci", Glass Design was founded in 1984 by the Borsellini family, further to a long tradition in manufacturing artistic glass.

Utilizzando materiali tecnologicamente avanzati, come il Silicio o l'Inox e, lavorando ad arte su materiali tradizionali, come il cristallo molato o il vetro artistico, Glass Design contribuisce alla creazione di un nuovo stile dove l'accessorio, curato nei minimi dettagli, diventa il soggetto principale dell'ambiente, un vero prodotto "moda", apprezzato nel mondo ed esportato in più di 60 paesi.

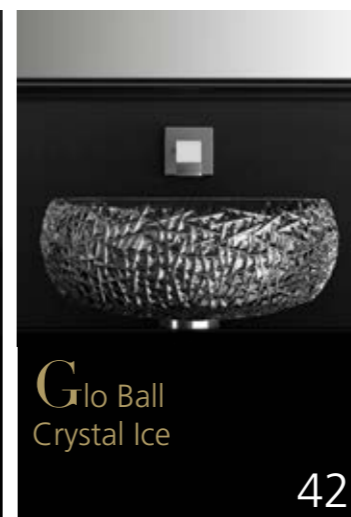

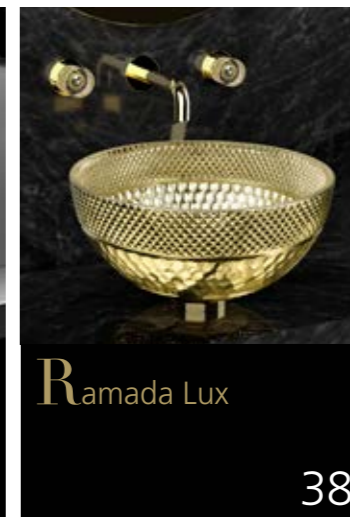

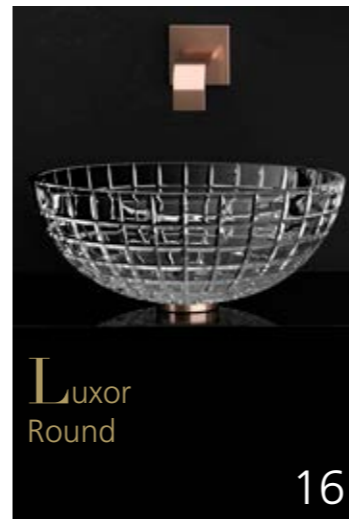

Both by using technologically advanced materials such as stainless steel or silicone, and by working in an artistic way with traditional materials like the formed 24%pb crystal and the artisan glass, the company Glass Design contributes to the creation of a new style, where even the accessory is addressed in all details, becoming the main subject of the environment, a true "fashion" product, highly appreciated in the world and exported to more than 60 countries.

Oltre 200 artigiani Toscani e una quindicina di vetrai muranesi appartengono alla filiera produttiva aziendale, permettendo di adattare ogni prodotto ad esigenze e richieste specifiche del cliente, con infinite personalizzazioni realizzando così, prodotti unici ed esclusivi.

Over 200 Tuscan artisans and more than 15 glassmakers of Murano work within the company's production chain, enabling the customization of each product to suit individual needs and specific requirements, in order to create unique and exclusive products.

 Cristallo[®]
DE' MEDICI
Pb 24%

Dalle più antiche e nobili arti vetrarie.
From the ancient and noble glass arts.

Collezioni esclusive, realizzate in cristallo purissimo al 24% pb.
Si tratta di prodotti raffinatissimi, soffiati a bocca e molati a pietra con
abilità, dai nostri maestri secondo le più antiche e nobili arti vetrarie.
Nessuna macchina, nessuna tecnologia, ma solo prodotti d'arte,
classici, contemporanei ... futuristici.

Exclusive collections created from pure crystal with 24% lead content.
These utmost refined products are mouth-blown and bevelled in stone
by our master artists according to the most ancient and noble glass
arts. Neither machines nor technology are employed in the process,
resulting in classical, contemporary or futuristic art products.

MURANO[®]
glass

Dalla tradizione millenaria un oggetto unico e prestigioso.
Creating masterpieces with artisan traditions.

Il vetro di Murano è da sempre sinonimo di raffinatezza, leggerezza ed eleganza.

I maestri vetrai hanno saputo sviluppare tecniche di lavorazioni privilegiate, nel rispetto della millenaria tradizione che rende il vetro di Murano un prodotto unico, prestigioso e inimitabile.

Murano glass is a synonym for elegance and timelessness.
By combining innovative techniques with traditional artisan workmanship, unique, prestigious and inimitable objects are created.

Marmo CALACATTA

Quando l'arte incontra la natura.
When art meets nature.

Estratto dalle famose cave di Carrara, il marmo Calacatta è il marmo più prezioso e ricercato al mondo. Michelangelo lo usò per realizzare il suo David, capolavoro della scultura rinascimentale, proprio per la particolare bellezza del suo bianco cristallino e delle sue inconfondibili venature sinuose.

Unico tra i marmi, il Calacatta permette di dare libero sfogo al design nella ricerca della sua forma ideale, garantendo lusso estetico unito alle migliori prestazioni di durata e alle nuove tendenze tecnologiche.

Retrieved from the famous quarries of Carrara, Calacatta is the most valuable and sought after marble in the world. Michelangelo chose it to create David, that masterpiece of Renaissance sculpture, precisely because of the particular beauty presented by its white crystalline structure and distinctive veins. Unique among marbles, Calacatta gives free rein to design in the pursuit of its ideal form, ensuring luxurious aesthetics combined with long-lasting performance and an affinity with the latest technological trends.

Vetro Freddo®

L' esaltazione della materia attraverso l'anima del suo colore.
A unique material. Expressive colours.

Il Vetro Freddo® è un materiale innovativo, composto da pigmenti vetrosi e resine. La sua caratteristica principale è la sua versatilità nell'adattarsi a qualsiasi tipo di forma. E' l'esaltazione della materia che si esprime attraverso l'anima del suo colore. La natura della sua materia, composta da pigmenti vetrosi e pertanto trasparenti, permette al VetroFreddo® di avere uno dei suoi principali punti di forza, e cioè la possibilità di esprimersi in colori trasparenti, traslucidi od opachi. Nessun limite quindi a livello cromatico e, oltre alla gamma di colori già esistente, è possibile scegliere in base alle proprie esigenze, uno dei numerosi colori presenti nella mazzetta "RAL". Il VetroFreddo® ha una resistenza termica di circa 100°C e può essere lavorato con gli stessi utensili del marmo o del vetro. Tutti gli oggetti in VetroFreddo® si possono lavare con qualsiasi tipo di sapone o detergente neutro non granulare, usando panni o spugne non abrasive. In caso di graffi superficiali, si può ripristinare l'oggetto intervenendo con un panno imbevuto di olio d'oliva o una semplice crema per le mani. In caso di graffi più profondi, è possibile ripristinare con una speciale carta vetro suggerita dal produttore in base al colore o al tipo di oggetto.

VetroFreddo® is an innovative material composed of glass pigments and resin. Its major characteristics are its versatility in adapting itself to any form or shape imaginable. The material's unique characteristics are expressed through the soul of its colour, which can be in clear, semi-transparent or opaque form, due to the material composition of glass pigments. No limits exist in regards to colour. Apart from the existing range of colours, any colour from the "RAL" colour scheme can be chosen. VetroFreddo® is temperature resistant up to approximately 100°C and can be worked with and carved just as marble or glass. All objects designed with the material VetroFreddo® can be cleaned with any type of non-granular soap, using soft sponges or tissues. In case of superficial damage (scratches), the damaged area should gently be rubbed with a sheet soaked in olive oil. In case of deeper scratches or damage, a special replacement glass paper is available from the manufacturer for every colour and type of object.

“Forme e design senza limiti”

“Shapes and design without limits”

TeknoForm®

L'esaltazione delle superfici da molteplici materiali.
Enhancement of material surfaces.

TeknoForm® è il materiale delle "texture", costituito da polimeri di varia natura, si esprime dando vita a prodotti monoscocca, esaltando le sue superfici. Dai mosaici alle pietre, dai marmi ai legni, tante soluzioni che danno vita a prodotti unici.

TeknoForm® is a polymer-based material. It expresses itself by enhancing the surface of its products. From mosaics to stone, from marble to wood, an incredible variety of solutions can be realized in creating unique products.

Pert[®]
polimero tecnologico

Leggerezza e design sposano la tecnologia.
Light weight, spectacular design, innovative technology.

Il Pert[®] è un polimero tecnologico dalle qualità eccezionali, che unisce un basso peso specifico ad un'elevata resistenza meccanica. Particolarmente adatto in quei settori dove l'esigenza della leggerezza del peso è fondamentale (nautico, aereo, camper...). E' un materiale che permette la realizzazione di prodotti di elevato design, eseguiti a regola d'arte, rispettando angoli, raggi, bassorilievi e planarità con la possibilità di scelta tra una vasta gamma di colori, personalizzabili a richiesta.

Pert[®] is a technological polymer of extraordinary quality, combining a low specific weight with high mechanical resistance. It is particularly suited to fields where light weight is essential (e.g. in nautical, aeronautical, camping, etc).

It is a material which enables the creation of products of high design, finely made, allowing perfectly crafted angles and a smoothly plane surface, with the possibility of choosing among a wide range of colours to suit individual demand.

Alumix[®]
lega d'alluminio

L'hi-tech, elegante e contemporaneo.
Distinguishing with contemporary elegance.

Prodotto hi-tech, elegante e contemporaneo che nasce da una fusione di lega di alluminio. La decorazione è realizzata a pennello, con la tecnica del graffiato, per ottenere un effetto bicromatico. Il bordo è spazzolato e lucidato a mano, per valorizzare l'anima ed il colore tipico di questo materiale.

A high-tech product, both elegant and contemporary, born from a merger of aluminum alloys. The decorations are brush-painted, employing a special brush technique in order to obtain a bi-chromatic effect. The board is brushed and polished by hand to enhance the soul and color, which are typical for this material.

Florence Glass
ATELIER[®]

L'ultima tendenza di oggetti decorati a mano.
Avant-garde trends in artisan product design.

Il progetto Atelier nasce dalla ricerca stilistica che una nostra equipe interna realizza rivolgendo lo sguardo al mondo della moda. I colori e le texture che vengono rappresentati nel programma sono la sintesi delle nuove tendenze.

The "Florence Glass Atelier" project is inspired by embedding the philosophy of the fashion world into product research. The focus lays on enhancing crystal material with colours and textures of fashion trends.

INOX ZERO®

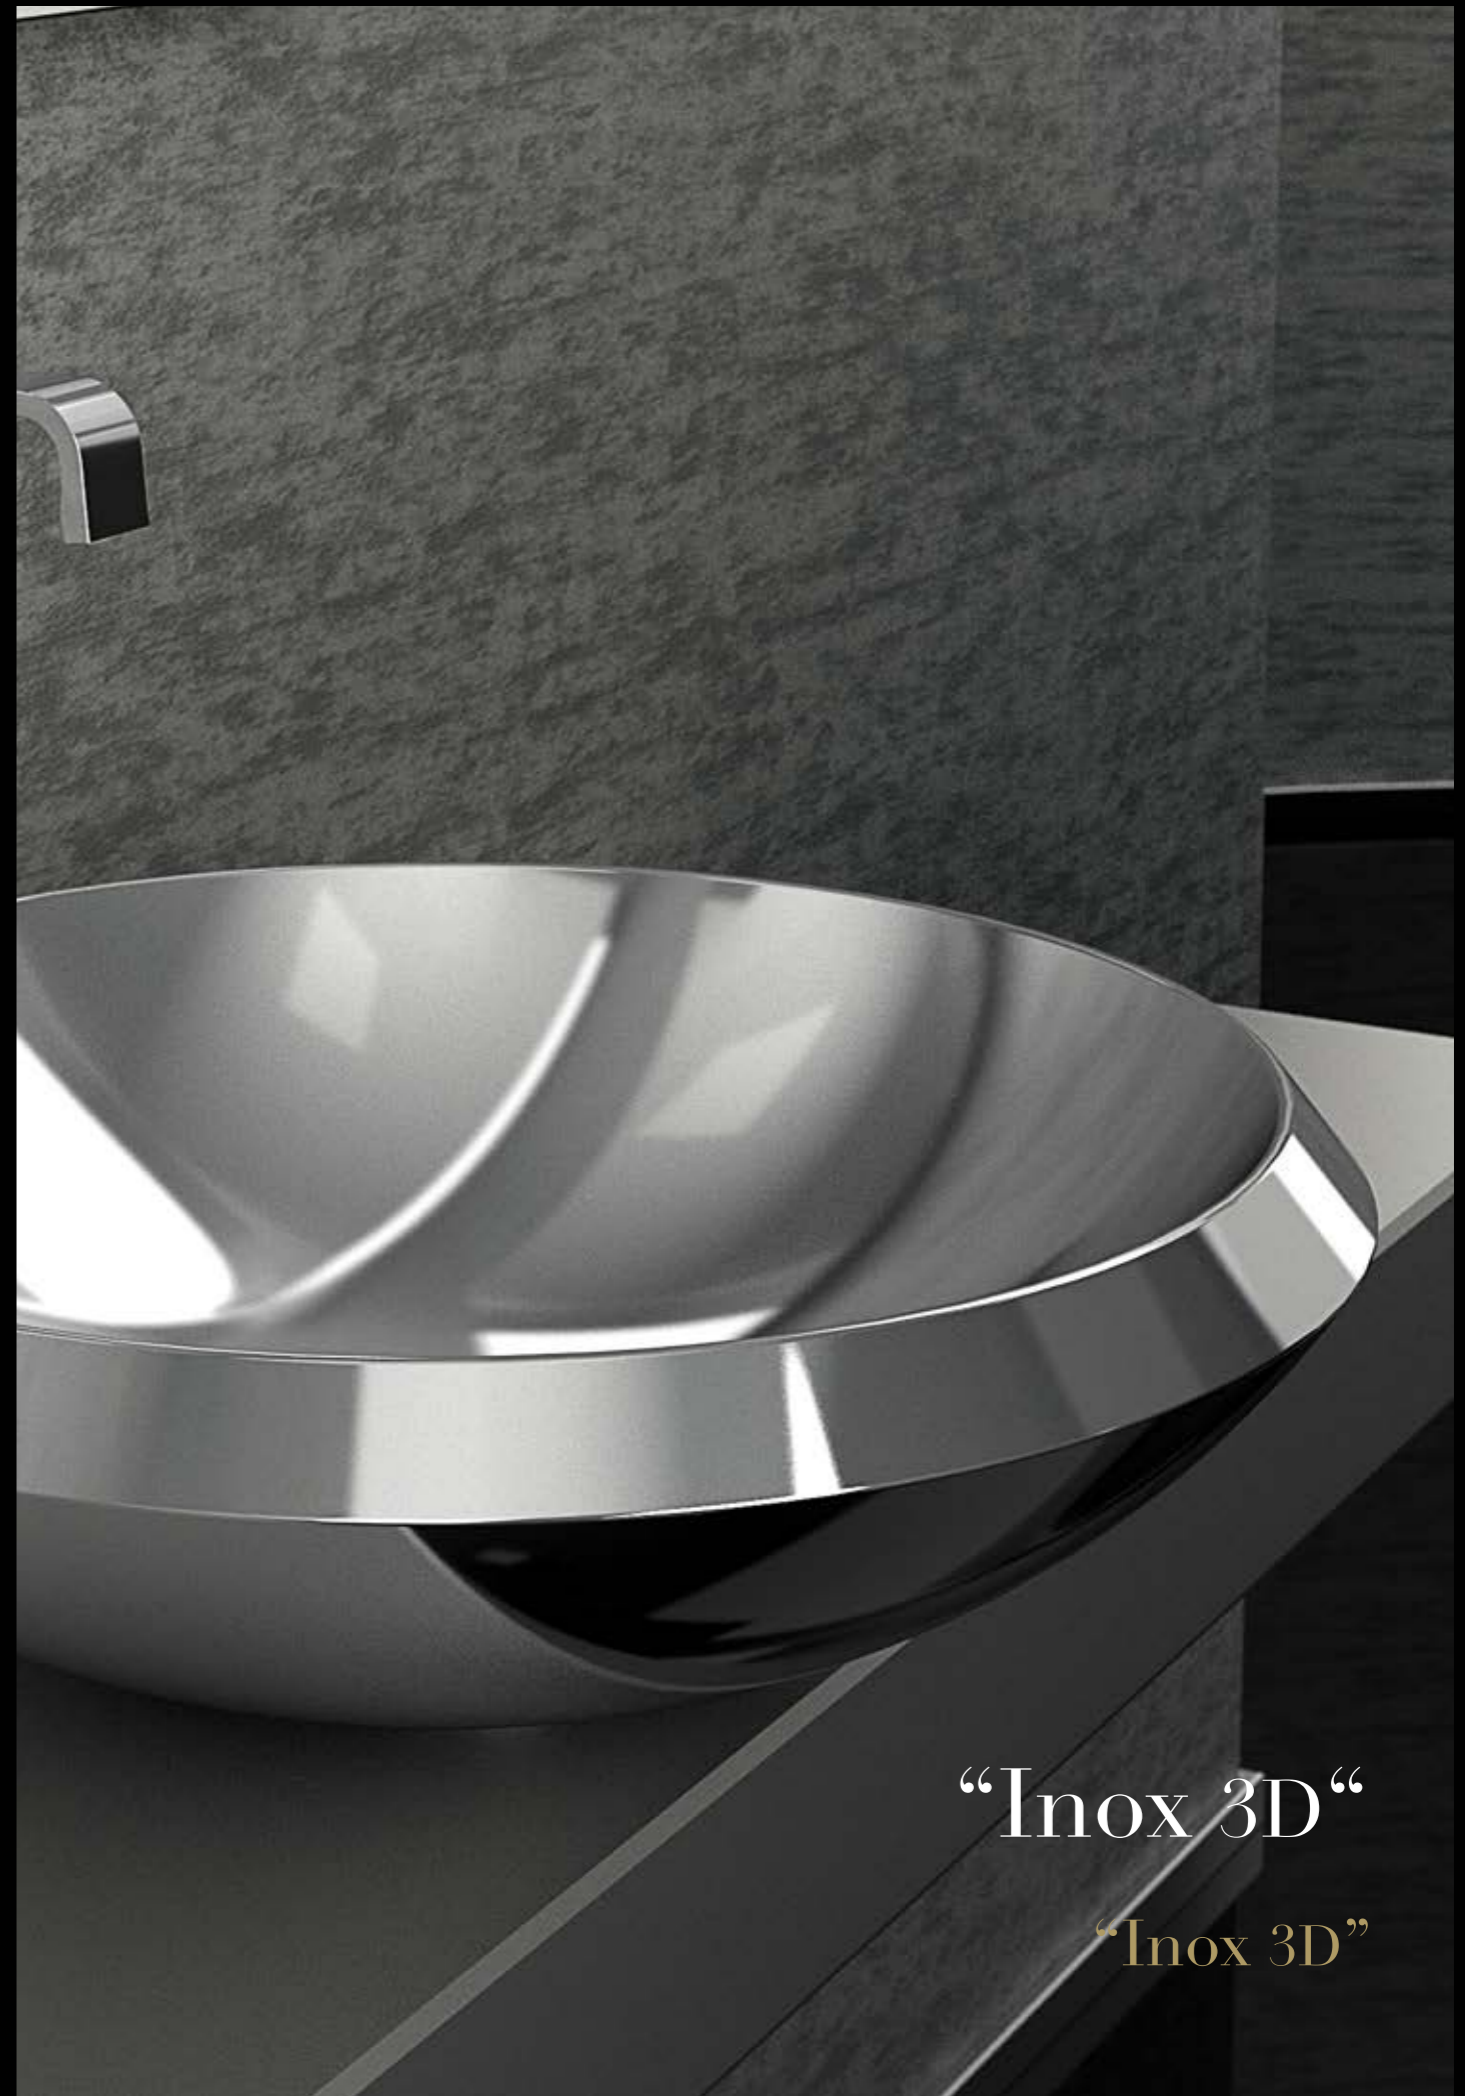

L'evoluzione dell'inox.
Inox evolution.

Nuova tecnologia applicata per dar vita ad un prodotto inox (18/8) tridimensionale.

Peso specifico ridottissimo nonostante i volumi.

Varie sono le espressioni cromatiche dal colore tipico dell'inox lucido, spazzolato fino all'ultima generazione di colori high-tech.

The products of the INOX ZERO Collection are made out of stainless steel (18/8), utilising advanced production processes enabling the combination of expressive design with of low weight. A wide range of colours can be achieved, from timeless metallic shades to prestigious brushed and avant-garde colours.

Siliconio®

Il design tattile, morbido, elastico, sensuale.
Touch and feel - soft and sensual.

Siliconio®, ultima generazione della famiglia dei siliconi. Via al design all'insegna dell'elasticità, dalle forme più rigorose che sfruttano le grandi potenzialità di questa materia, a quelle più bizzarre e originali. E' un materiale dalle forti sensazioni tattili: morbido, elastico, sensuale, unico. Siliconio®, quale materiale elastico, può essere sottoposto a torsioni, allungamenti e piegamenti ed in corso di rilascio torna alla sua forma originale. Siliconio® è idrorepellente, antinfortunistico, resistente a temperature tra -60°C e +250°C, lavabile, autoestinguento, atossico, dotato di resistenza chimica eccellente. Siliconio® è Touch design per eccellenza.

Siliconio®, is the latest development in the family of silicone materials. Featuring unique designs based on its elasticity, it allows for rigorous shapes, benefiting from the great potential of the material, being amongst the most unique and original. It is a material of touch: soft, elastic, sensual – simply unique. Siliconio® can be bent and folded in any possible way, always returning to its original form once released. Siliconio®, is water-repellent and, soft, thus reducing the risk of injury, but also resistant to extreme temperatures from -60°C to +250°C, washable, self-extinguishing, non-toxic and with excellent chemical resistance characteristics. Siliconio® is 'Touch design' at its very best.

“Touch design per eccellenza”

“Excellence you can touch and feel”

Tradizione senza tempo.
Timeless tradition.

La terra come fonte di ispirazione per rappresentare colorazioni e sensazioni tattili con finiture bicolore e texture esterne.

Terra di Siena una collezione di lavabi in ceramica realizzati interamente a mano. Lievi differenze cromatiche e imperfezioni di forma sono testimonianza dell'artigianalità del processo produttivo.

Earth is the source of inspiration for colours and tactile sensations with bi-colour finishes and textural exteriors.

The Terra di Siena collection of ceramic washbasins is made entirely by hand. Slight colour differences and shape imperfections are testimony to the craftsmanship of the production process.

Piletta ABS scarico libero

Piletta ABS a scarico libero con logo GD
ABS waste with free flow plug with GD logo
(Ø 72 - H 100 mm)

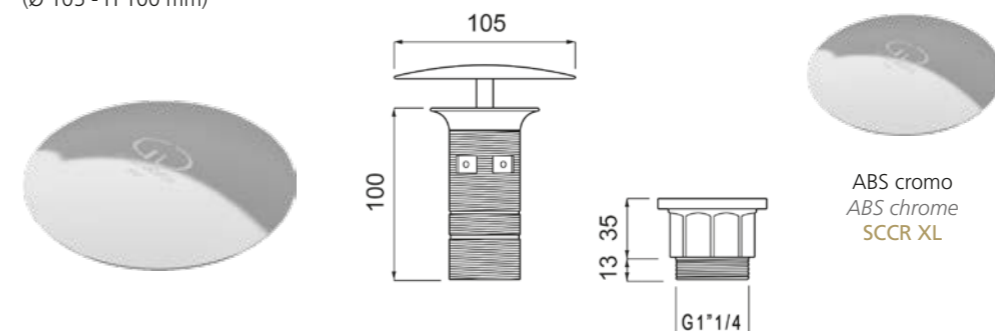

Piletta clik-clak senza troppopieno

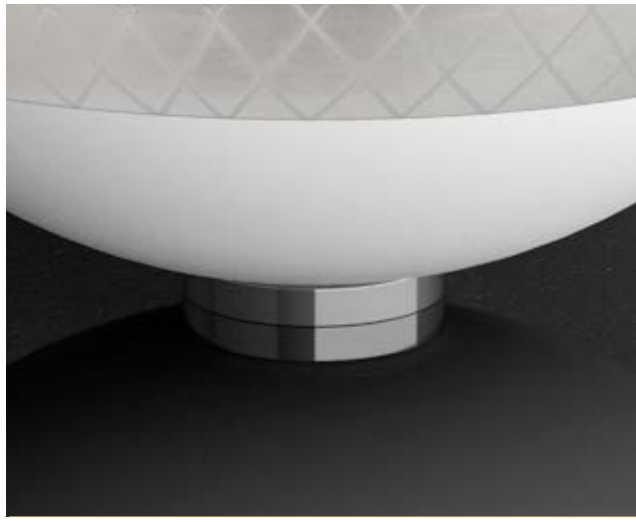

Piletta clik clak in ottone con logo GD
Up & Down waste with GD logo (without overflow)
(Ø 63,5 - H 100 mm)

Piletta scarico libero tappo XL

Piletta a scarico libero con logo GD
Waste with free flow plug with GD logo
(Ø 105 - H 100 mm)

Base anello Ring basement

Anello Standard con o'ring

Base anello in ottone con o'ring in silicone per lavabo da appoggio
Brass ring basement with silicon o'ring for counter top washbasin

Anello per Flou con o'ring

Base anello in ottone con doppio o'ring in silicone e guarnizione per lavabo FLOU da appoggio
Brass ring basement with double silicon o'ring and gasket for FLOU counter top washbasin

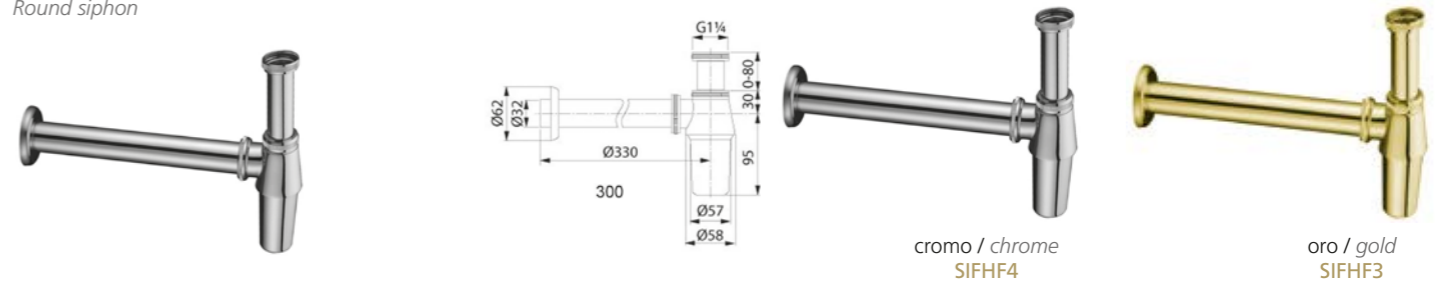

Anello per Katino con o'ring

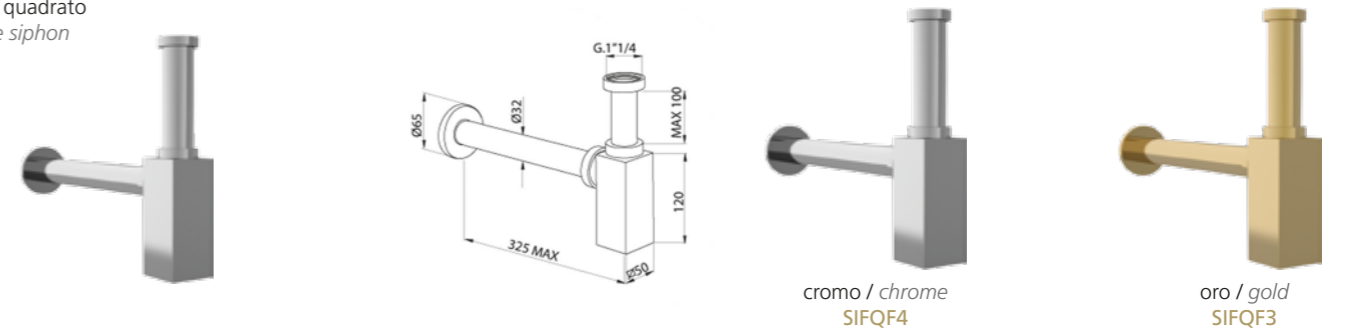

Base anello in ottone con doppio o'ring in silicone e guarnizione per lavabo KATINO da appoggio
Brass ring basement with double silicon o'ring and gasket for KATINO counter top washbasin

Tondo Sifone tondo Round siphon

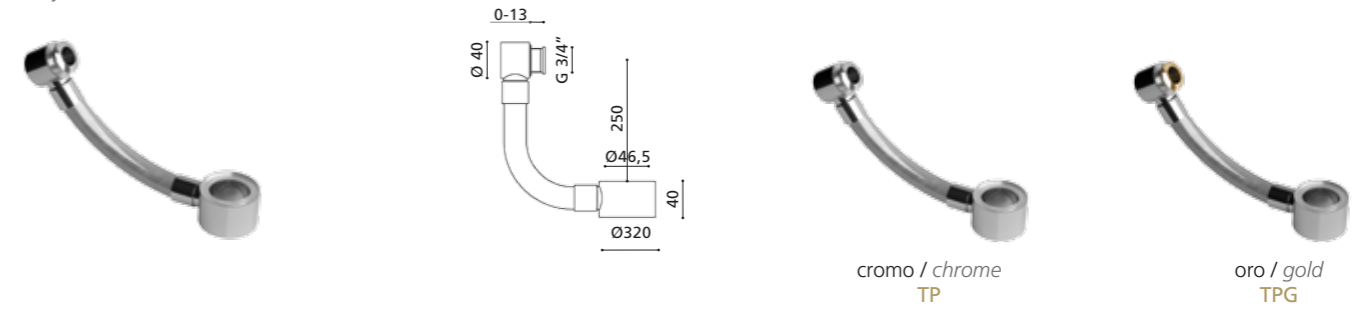

Quadro Sifone quadrato Square siphon

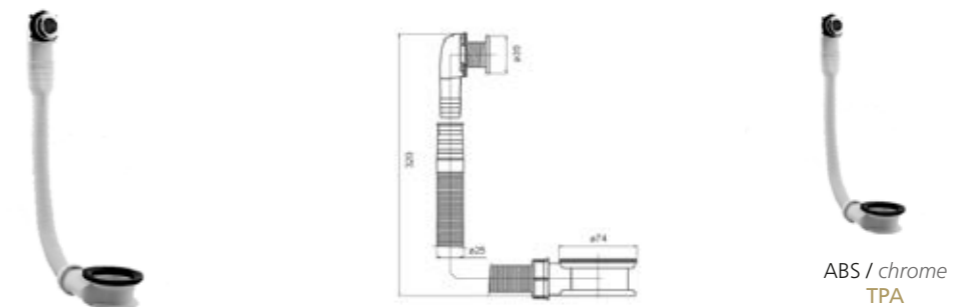

Troppo pieno

Troppo pieno completo per scarico lavabo 1" 1/4
Overflow joint for basin waste 1" 1/4

Troppo pieno ABS

Troppo pieno per lavabi sottopiano ABS bianco (con anello cromato)
White ABS basin overflow (with chrome ring) for under mounted wash basins

Materials

Design senza confini

Design without borders

Collezioni esclusive, realizzate in cristallo purissimo al 24% pb.
Si tratta di prodotti raffinatissimi, soffiati a bocca e molati a pietra con abilità, dai nostri maestri secondo le più antiche e nobili arti vetrarie. Nessuna macchina, nessuna tecnologia, ma solo prodotti d'arte, classici, contemporanei ... futuristici.
Exclusive collections created from pure crystal with 24% lead content.
These utmost refined products are mouth-blown and bevelled in stone by our master artists according to the most ancient and noble glass arts. Neither machines nor technology are employed in the process, resulting in classical, contemporary or futuristic art products.

Il vetro di Murano è da sempre sinonimo di raffinatezza, leggerezza ed eleganza. I maestri vetrai hanno saputo sviluppare tecniche di lavorazioni privilegiate, nel rispetto della millenaria tradizione che rende il vetro di Murano un prodotto unico, prestigioso e inimitabile.
Murano glass is a synonym for elegance and timelessness.
By combining innovative techniques with traditional artisan workmanship, unique, prestigious and inimitable objects are created.

Estratto dalle famose cave di Carrara, il marmo Calacatta è il marmo più prezioso e ricercato al mondo. Michelangelo lo usò per realizzare il suo David, capolavoro della scultura rinascimentale, proprio per la sua particolare bellezza del suo bianco cristallino e delle sue inconfondibili venature sinuose.
Unico tra i marmi, il Calacatta permette di dare libero sfogo al design nella ricerca della sua forma ideale, garantendo lusso estetico unito alle migliori prestazioni di duratura e alle nuove tendenze tecnologiche.
Retrieved from the famous quarries of Carrara, Calacatta is the most valuable and sought after marble in the world. Michelangelo chose it to create David, that masterpiece of Renaissance sculpture, precisely because of the particular beauty presented by its white crystalline structure and distinctive veins. Unique among marbles, Calacatta gives free rein to design in the pursuit of its ideal form, ensuring luxurious aesthetics combined with long-lasting performance and an affinity with the latest technological trends.

Materials
Materials

Vetro Freddo®

Il Vetro Freddo® è un materiale innovativo, composto da pigmenti vetrosi e resine. La sua caratteristica principale è la sua versatilità nell'adattarsi a qualsiasi tipo di forma. E' l'esaltazione della materia che si esprime attraverso l'anima del suo colore. La natura della sua materia, composta da pigmenti vetrosi e pertanto trasparenti, permette al VetroFreddo® di avere uno dei suoi principali punti di forza, e cioè la possibilità di esprimersi in colori trasparenti, traslucidi od opachi. Nessun limite quindi a livello cromatico e, oltre alla gamma di colori già esistente, è possibile scegliere in base alle proprie esigenze, uno dei numerosi colori presenti nella mazzetta "RAL". Il VetroFreddo® ha una resistenza termica di circa 100°C e può essere lavorato con gli stessi utensili del marmo o del vetro. Tutti gli oggetti in VetroFreddo® si possono lavare con qualsiasi tipo di sapone o detergente neutro non granulare, usando panni o spugne non abrasive. In caso di graffi superficiali, si può ripristinare l'oggetto intervenendo con un panno imbevuto di olio d'oliva o una semplice crema per le mani. In caso di graffi più profondi, è possibile ripristinare con una speciale carta vetro suggerita dal produttore in base al colore o al tipo di oggetto.

VetroFreddo® is an innovative material composed of glass pigments and resin. Its major characteristics are its versatility in adapting itself to any form or shape imaginable. The material's unique characteristics are expressed through the soul of its colour, which can be in transparent, semi-transparent or opaque form, due to the material composition of glass pigments. No limits exist in regards to colour. Apart from the existing range of colours, any colour from the "RAL" colour scheme can be chosen. VetroFreddo® is temperature resistant up to approximately 100°C and can be worked with and carved just as marble or glass. All objects designed with the material VetroFreddo® can be cleaned with any type of non-granular soap, using soft sponges or tissues.

In case of superficial damage (scratches), the damaged area should gently be rubbed with a sheet soaked in olive oil.

In case of deeper scratches or damage, a special replacement glass paper is available from the manufacturer for every colour and type of object.

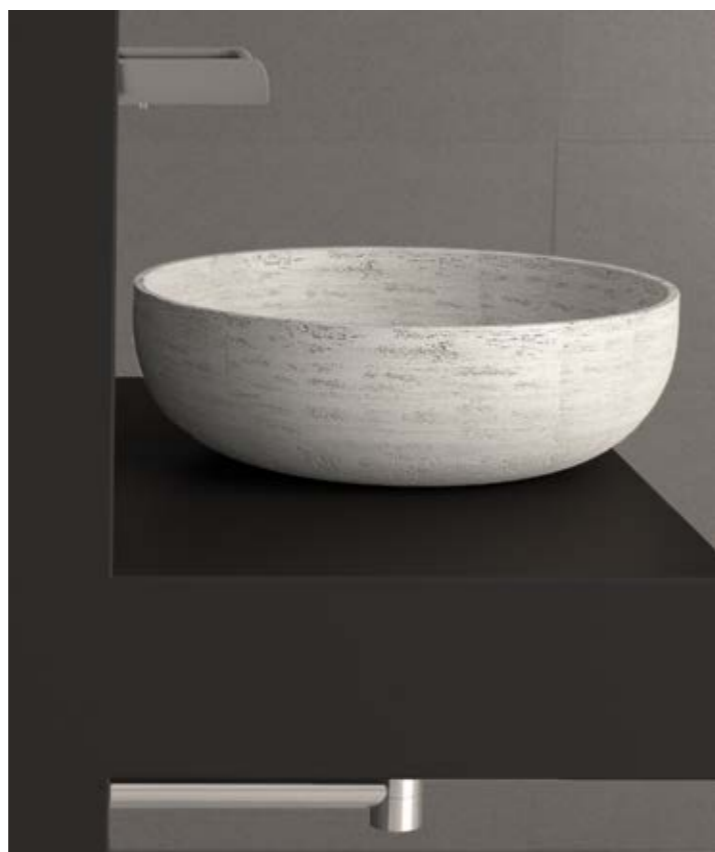

TeknoForm®

TeknoForm® è il materiale delle "texture", costituito da polimeri di varia natura, si esprime dando vita a prodotti monoscocca, esaltando le sue superfici. Dai mosaici alle pietre, dai marmi ai legni, tante soluzioni che danno vita a prodotti unici.

TeknoForm® is a polymer-based material. It expresses itself by enhancing the surface of its products.

From mosaics to stone, from marble to wood, an incredible variety of solutions can be realized in creating unique products.

Pert®

polimero tecnologico

Il Pert® è un polimero tecnologico dalle qualità eccezionali, che unisce un basso peso specifico ad un'elevata resistenza meccanica. Particolarmente adatto in quei settori dove l'esigenza della leggerezza del peso è fondamentale (nautico, aereo, camper...). E' un materiale che permette la realizzazione di prodotti di elevato design, eseguiti a regola d'arte, rispettando angoli, raggi, bassorilievi e planarità con la possibilità di scelta tra una vasta gamma di colori, personalizzabili a richiesta. Pert® is a technological polymer of extraordinary quality, combining a low specific weight with high mechanical resistance. It is particularly suited to fields where light weight is essential (e.g. in nautical, aeronautical, camping, ...).

It is a material which enables the creation of products of high design, finely made, allowing perfectly crafted angles and a smoothly plane surface, with the possibility of choosing among a wide range of colours to suit individual demand.

Alumix®

Prodotto hi-tech, elegante e contemporaneo che nasce da una fusione di lega di alluminio. La decorazione è realizzata a pennello, con la tecnica del graffiato, per ottenere un effetto bicromatico. Il bordo è spazzolato e lucidato a mano, per valorizzare l'anima ed il colore tipico di questo materiale.

A high-tech product, both elegant and contemporary, born from a merger of aluminum alloys. The decorations are brush-painted, employing a special brush technique in order to obtain a bi-chromatic effect. The board is brushed and polished by hand to enhance the soul and color, which are typical for this material.

Il progetto Atelier nasce dalla ricerca stilistica che una nostra equipe interna realizza rivolgendo lo sguardo al mondo della moda. I colori e le texture che vengono rappresentati nel programma sono la sintesi delle nuove tendenze.

The "Florence Glass Atelier" project is inspired by embedding the philosophy of the fashion world into product research.

The focus lays on enhancing crystal material with colours and textures of fashion trends.

Nuova tecnologia applicata per dar vita ad un prodotto inox (18/8) tridimensionale.

Peso specifico ridottissimo nonostante i volumi.

Varie sono le espressioni cromatiche dal colore tipico dell'inox lucido, spazzolato fino all'ultima generazione di colori high-tech.

The products of the INOX ZERO Collection are made out of stainless steel (18/8), utilising advanced production processes enabling the combination of expressive design with of low weight. A wide range of colours can be achieved, from timeless metallic shades to prestigious brushed and avant-garde colours.

Siliconio®, ultima generazione della famiglia dei siliconi. Via al design all'insegna dell'elasticità, dalle forme più rigorose che sfruttano le grandi potenzialità di questa materia, a quelle più bizzarre e originali. E' un materiale dalle forti sensazioni tattili: morbido, elastico, sensuale, unico. Siliconio®, quale materiale elastico, può essere sottoposto a torsioni, allungamenti e piegamenti ed in corso di rilascio torna alla sua forma originale. Siliconio® è idrorepellente, antinfortunistico, resistente a temperature tra - 60°C e + 250°C, lavabile, autoestinguente, atossico, dotato di resistenza chimica eccellente.

Siliconio® è Touch design per eccellenza.

Siliconio®, is the latest development in the family of silicone materials. Featuring unique designs based on its elasticity, it allows for rigorous shapes, benefiting from the great potential of the material, being amongst the most unique and original. It is a material of touch: soft, elastic, sensual – simply unique. Siliconio® can be bent and folded in any possible way, always returning to its original form once released. Siliconio®, is water-repellent and, soft, thus reducing the risk of injury, but also resistant to extreme temperatures from -60°C to +250°C, washable, self-extinguishing, non-toxic and with excellent chemical resistance characteristics.

Siliconio® is 'Touch design' at its very best.

La terra come fonte di ispirazione per rappresentare colorazioni e sensazioni tattili con finiture bicolore e texture esterne.

Terra di Siena una collezione di lavabi in ceramica realizzati interamente a mano. Lievi differenze cromatiche e imperfezioni di forma sono testimonianza dell'artigianalità del processo produttivo.

Earth is the source of inspiration for colours and tactile sensations with bi-colour finishes and textural exteriors.

The Terra di Siena collection of ceramic washbasins is made entirely by hand. Slight colour differences and shape imperfections are testimony to the craftsmanship of the production process.
