

AYLA

Design by Yabu Pushelberg

CEQ

AYLA

Ayla "moonlight" – which captures with the strength of its sign and the elegance of its details, was born from the unique hands of Yabu Pushelberg.

The design of Ayla echoes the form of an I-beam, a fundamental source of support in construction, while making it extremely graceful at the same time.

The beauty of Ayla lies in its discretion: the beveled edges are not only visually striking; they also add comfort and functionality to the user experience.

With Ayla, CEA once again confirms its profound knowledge of the language of contemporary architecture and underlines an uncompromising technique which allows an unusually thin horizontal spout to complete the wider vertical faucet body.

Made of AISI 316L stainless steel, available in both satin and polished versions, Ayla also comes in the four CEA special finishes: Black Diamond, Bronze, Copper and Light Gold.

YABU PUSHELBERG

Yabu Pushelberg designs places and products: immersive environments, compelling destinations, and considered goods.

George Yabu and Glenn Pushelberg founded the studio in 1980 with an emphasis on interior design and have since expanded the studio into a multidisciplinary practice that addresses multiple layers of human experience.

With offices in New York and Toronto and a team of more than a hundred creatives and professionals, the studio specializes in sensibilities spanning buildings, interiors, landscapes, lighting, furniture, objects, and graphics with a focus that goes well beyond what things look like, to how they make people feel.
