Essentials by JTP

Introducing the new JTP Essentials catalogue, showcasing the elite of bathroom brassware which offers the ultimate value for money.

JTP was established in 1992 and through their ability to keep pace with the consumers ever changing lifestyles, tastes and preferences, quickly gained a strong foothold in the UK market for designer brassware and accessories.

Bringing you a diverse mix of statement shapes and striking finishes; clean lines cater for those seeking minimalism, whilst delicate details add a splash of classic opulence to any bathroom interior.

Filled with new ranges to impact and inspire, here at JTP we are confident you will find the latest brassware solutions to suit all your bathroom needs for a simple update of complete bathroom makeover.

At JTP, we are dedicated to bring our customers the best designs at the most affordable prices.

Flow Regulators

JTP offers a range of affordable water saving devices and flow regulators to help you use water more economically.

Flow regulators control the flow of water by responding to signals generated by independent devices like flow meters or temperature gauges fitted inside showers and taps. They are manufactured using certified materials to avoid splash and maximise water and energy savings.

There are so many reasons we need to be mindful of our water usage – the huge demands placed on our water supplies have caused the government to launch legislation regulating the flow of water supplied by taps and showers in new homes.

Equally, we all want to be kinder to the environment by using water efficiently to contribute to a greener future. Conserving water is good news for both the planet and our pockets, as reducing water consumption helps us to save money on household bills.

All of our water saving devices and flow regulators conform to new legislation and come with Water Regulation Advisory Scheme approval to reassure you of their eco credentials.

All the below constant flow controls reduce dynamic pressure avoiding splash and maximise the water/energy saving and system balancing. They are produced from materials which have certification meeting the requirement of BS5490 “Materials for use with contact to potable water”

A shower regulator suitable for shower applications. Should be connected to the inlet of the hose. Available in flow rates circa 6.0 litre, 8.0 litre, 10.0 litre or 12.0 litre
FL1
£8.50

Aerator converter kit suitable for most screwed spout outlet connections replacing the current stream straightener. Available in 1.7 litre spray wash hand basin, 3.5 litre aerated column general basins or 5.0 litre aerated column
FL2
£7.60

Constant flow regulator suitable for insertion into the 1/2" inlet connection of taps manufactured to BS5412 Type 2 connection (pillar taps). Available in 2.0 litre minimum, 4.0 litre minimum
FL3
£3.00

Economy shower regulator suitable for accurate flow control to mains pressure feed systems only. Can be fitted in any 1/2" flat face connection, shower hose or flexible tap connectors. Come complete with integral gasket. Available in 6.0 litre, 8.0 litre, 10.0 litre or 12.0 litre flow rates
FL4
£3.00

All our products go through rigorous quality assurance processes so we can assure they reach the quality standard that allow us to offer a 5 year guarantee.

1. Prices

Prices shown are inclusive of VAT. The company reserves the right to modify prices and general sales conditions at any time without prior notice.

2. Orders

All orders are subject to the company's approval and are completely and tacitly subject to the following sales conditions. The order is confirmed at the prices shown in the catalogue. Modifications to orders communicated verbally and/or by the phone must be confirmed in writing by the customer. A customer cannot cancel an order without the agreement of the company; the company reserves the right to apply appropriate charges. The minimum purchase order is £75.00 excluding VAT. Orders under this value will incur a carriage fee.

3. Delivery

The company shall endeavour to deliver the goods by the date quoted for delivery, but such date is not guaranteed. The date quoted shall be extended by a reasonable period if there is a delay caused for any reason beyond the reasonable control of the company.

4. Packaging

All products are packaged by fully trained, professional warehousing staff and leave the premises in optimum condition for delivery. As such, Just Taps Plus declines all responsibility for damages arising from mishandling during transit.

5. Compatibility

Whilst the majority of Just Taps Plus products are compatible with UK specifications, care should be taken on product selection prior to ordering to avoid problems arising from installation issues.

Just Taps Plus reserves the right to make technical changes to products at any time and modify or cancel models. Details and dimensions are approximate; therefore we advise no pre-drilling to fit products before delivery. Just Taps Plus will not be held liable for fitting issues that arise if drilling is attempted before the product is received.

6. Payment terms

The buyer shall pay the price of the goods no later than the end of the next calendar month following the date of invoice relating to the goods. All payments shall be made in full, without deduction in respect of any counter claim.

If the buyer fails to comply strictly with the company's terms the company shall be entitled to cancel the contract or suspend any further deliveries to the buyer. Any sum remaining outstanding after the company's terms will be considered overdue and will attract interest payable to the company at the rate of 5% over Barclays bank base rate, until payment is received.

7. Property rights

Until Just Taps Plus has received full payment for goods the goods will remain the exclusive property of Just Taps Plus.

8. Company's liability

8.1 Nothing in these terms shall exclude or restrict the company's liability

- a) For death or personal injury resulting from the company's negligence or
- b) For fraud or fraudulent misrepresentation or
- c) Under section 2 (3) Consumer Protection Act 1987 or
- d) For any matter for which it would be illegal for the company to exclude or attempt to exclude its liability

8.2 The company warrants that, subject to the other provisions of these terms, upon delivery:

- a) The goods will be of good materials and workmanship
- b) the goods will be reasonably fit for any particular purpose for which the goods are being bought, if the buyer had made known that purpose to the company in writing and a person authorised to sign on behalf of the company has confirmed in writing that it is reasonable for the buyer to rely on the skill and judgement of the company

8.3 In this clause "the defect" shall mean the condition and/or any attribute of the goods and/or any condition or circumstance arising from any service provided by the company and/or any other circumstances which but for the effect of these conditions would have entitled the buyer to damages.

8.4 The company shall not be liable for a breach of any of the warranties in Clause 8.2:

- a) Unless the defect is discovered within 7 days of the date of delivery and the company is given written notice of the defect within 7 days of it being discovered
- b) The buyer makes any further use of the goods after giving notice of the defect to the company
- c) If the buyer fails to adhere to the terms of payment set out in the terms
- d) Unless after discovery of the defect the company is given a reasonable opportunity to inspect the goods before they are used, fixed or interfered with in any way and the buyer (if asked to do so by the company) returns such goods to the company's premises at the buyer's cost for the examination to take place there. If, following such inspection by the company, the company accepts that the goods do have a defect the company shall refund to the buyer the reasonable cost incurred in returning such goods to the company. It is acknowledged that the costs of suspending works are relevant to the determination of what is a reasonable opportunity and this
